

Need your oral liquid medications repackaged into NeoMed ENFit syringes?

We've got you covered!

Safecor Health's repackaging services include NeoMed's amber ENFit syringes with your required dose size and bar code. ENFit purple tamper-evident caps are also available for controlled substances.

Available ENFit syringe sizes with Safecor Health:

0.5 mL 1 mL 3 mL 6 mL 12 mL 20 mL 35 mL

Evaluating a conversion to ENFit products? Be sure to include your health system's pharmacy administration team so they understand the many advantages of NeoMed ENFit syringes — like low-dose tips for neonatal and pediatric syringes — and so standardized doses can be pre-filled into NeoMed ENFit syringes by Safecor Health.

Not yet converting to ENFit syringes? No worries! Safecor Health also repackages oral liquid medications into NeoMed's standard unit-dose oral syringes.
