WESTPAY

C100+

A PAYMENT SOLUTION COVERING ALL PAYMENT METHODS ANYTIME, ANYWHERE.

A mobile world needs a payment terminal to match.

TC100+ the performance to a whole new level. With a battery that delivers twice the capacity compared to C100, you can trust C100+ hour after hour.

Built for the future:

- Fast payment processing
- Mobile
- Large battery
- Embrace todays and tomorrows payment applications.
- The highest security standards to-date.
- Scalable, flexible and mobile.

Our payment terminals are designed for all the payment methods that you can expect from a modern solution. Also, our new payment terminals are built on Android, that gives you many opportunities for flexible customization.

Mobility is everything

Designed to embrace all common payment methods like: NFC/contactless, chip and magnetic stripe.

Driven by passion and powered by Android make this terminal a natural choice for anyone that appreciate quality and innovation.
