## GET READY FOR A PAYMENT SOLUTION THAT CHALLENGES YOUR IMAGINATION

Are you looking for a game-changer? Ready to enable your creativity? Say hello to Carbon, an innovation from Westpay that embraces all the features you should demand from a modern payment solution.

### Built for the future:

- Fast payment processing
- Embrace today's and tomorrow's payment applications.
- The highest security standards to-date.
- Scalable, flexible and mobile.

Our payment terminals are designed for all the payment methods that you can expect from a modern solution. Also, our new payment terminals are built on Android, that gives you many opportunities for flexible customization.

### Integration is crucial

The new Westpay terminal C10 enables fast and secure integrated payments.

With a clean design and proven modern technology our solution gives the customer a smooth payment experience.

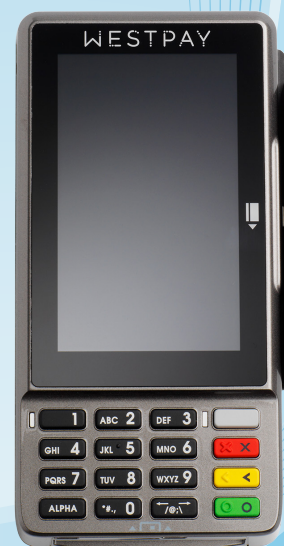

*Driven by passion and  
powered by Android make this  
terminal a natural choice for  
anyone that appreciate quality  
and innovation.*

*Our software solution give you the freedom to be yourself. Scalability, flexibility, and mobility comes out of the box.*
