SIMPLIFY AND IMPROVE YOUR HOTEL BOOKINGS

ADD TOURNAMENT HOTEL BOOKINGS TO YOUR REGISTRATION FLOW & SPEED UP PAYMENTS

Lucid Travel is a travel management platform that allows tournament organizers to set up and manage lodging for their events and seamlessly drive greater conversion of hotel room bookings, thus increasing your revenue.

HOW THE INTEGRATION WORKS

Once you enable Lucid Travel within LeagueApps and choose which programs you want to integrate with Lucid Travel, Lucid Travel will provide your members access to automated deals and room blocks. You will get a custom travel page, financial reporting and payment tracking, as well as expedited access to rebate fees, rather than waiting 30-60 days for the hotel to pay it after the event.

WHY CLUBS LOVE LUCID TRAVEL

SET UP CUSTOM ROOM BLOCKS FOR PLAYERS

Tournament attendees get instant access to hotel inventory and the room blocks reserved by the tournament director.

Why set up room blocks yourself when Lucid Travel can do it for you? They'll present you with better rates and you'll still earn your entire rebate.

CLEARLY COMMUNICATE TRAVEL INFORMATION

Lucid Travel's notification system stays on top of tournament attendees to book their hotel room through email reminders, as well as notifying the tournament director about bookings, the lodging policy, and reporting. This can meaningfully drive up your revenue from hotel room bookings.

SPEED UP PAYMENTS

Tournament directors are paid automatically every month (including an upfront rebate payment) and have access to accurate financial reporting, including how much they earn per room per night.
