

SORTER TABLE

Maintain Quality. Process Faster.

GREENBROZ

PRODUCT DETAILS

The **Sorter Table** is a perfect addition to the GreenBroz Precision Sorter and is included in the GreenBroz Rise-N-Sort package. This table boasts up to a 15-pound capacity while offering flexible size adjustments to fit your sorting needs. The versatility of this Sorter Table allows you to ditch previously used pre-sized bins, which can constrain your size options. The Sorter Table perfectly aligns with the Precision Sorter outfeed and the shallow bin depth minimizes vertical drop, further preserving quality. Operators can easily scale their sorting process through the addition of multiple Sorter Tables, sending full tables along for further processing while wheeling in a clean replacement table, effectively enabling nonstop operation.

- Capacity: Up to 15 Lbs.
- Bin Sizes: Adjustable to User Preference
- Weight: 150 Lbs.
- Dimensions: 50"L x 28"W x 33"H
- Bin Depth: 5.925"
