AI SCHOLARS
LIVE ONLINE

AI CAMP FOR HIGH SCHOOL STUDENTS
BY STANFORD ALUMNI AND GRADUATE STUDENTS

AI Scholars Live Online is a 10-session (25-hour) program that exposes high school students Grades 9-12 to fundamental AI concepts and guides them to build a socially impactful project. Taught by our team of graduate students from Stanford University, students receive a personalized interdisicplinary learning experience with a student-teacher ratio of 4:1. Students with previous programming experience will be placed with an advanced cohort, although no programming experience is required.

STUDENT OUTCOMES

AI Projects: Mentor-led group projects, which are presented to parents, instructors, and peers at the final showcase

AI Careers & Ventures: Talks about AI research and pursuing a career in domans including healthcare and transportation

Pre-College Prep: Workshops on preparing for CS/AI programs and communicating project experience effectively

HOW IT WORKS

Personalized instruction and guidance online through video and chat.

Work closely with their peers throughout various activities and interact with multiple instructors in a **collaborative learning environment.**

Gain access to an **online portal** with quizzes, coding assignments, and additional AI projects to continue learning outside of class sessions.

PROGRAM INFORMATION

The program runs for 10 sessions of 2.5 hours each for a total fee of $900.
Deferred payment option available.
