

Azure Active Directory

Secure Cloud Services for your online business since 1999.
.Reliable .Secure .Speed .Scalable .Manageable .Compliant

Get the reliability and scalability you need with identity services that work with your on-premises, cloud or hybrid environment.

Features

Multi-Factor Authentication

Device Registration

Self-service password management

Role-based access control

Application usage monitoring

Key Benefits

Seamless, highly secure access

Comprehensive Identity Protection

Efficient management & compliance at scale

Customer and partner identities

Identity platform for developers

Identity for IaaS (infrastructure as a service)
