USE CASES

Protect your online identity

With Xcellhost, you can protect yourself from data theft, tracking, surveillance, and commercial targeting.

Block ads, trackers & malware

The web is better when you're safe. Forget malware & phishing attempts, and be free from ads.

Stay safe on public Wi-Fi

Public Wi-Fi can come in handy - but it's a goldmine for hackers. Use Xcellhost to protect your connection.

Be secure while online banking

Our diamond-strong end-to-end encryption & malware filters ensure safe online banking, every time.

Secure your crypto assets

Encrypt your data and avoid malware. Make sure your wallet cannot be traced and identified via your IP address.

Protect yourself while gaming

Most gamers have heard about the horrors of doxing or even swatting. Shield yourself with Xcellhost.

Bring your entertainment abroad

There's no need to miss your favorite shows when you travel just because they're only available back home.

Bypass censorship. Everywhere

The internet should be an open hub of knowledge and sharing. With Xcellhost, you can access any content, from anywhere.

Stream live sports safely

Stream safely with Xcellhost. You won't suffer from buffering and will be able to watch your matches in HD, without annoying pop-ups.

Find the best prices online

Check the prices in different countries and score a great deal. Works like a charm with airline tickets, hotels, and car rentals.

Enjoy safe & fast torrenting

Make sure that you're private and secure when seeding or downloading P2P files. You won't get big speed drops.

Watch content privately

Stay private and secure at all times. Watch whatever you want, and don't worry about anyone watching you.

HOW WE'RE DIFFERENT

Organize

Delivers secure access to all the information, apps, and content relevant to a person's role.

Security

Helps people focus on what's most important with streamlined workflows and virtual assistance.

Choice

Leverages machine learning to automate routine tasks and reduce busywork.

Choose the plan that's right for your business

Workspace Premium

₹1371 User/Month

Complete workspace solution for workers who need a full digital workspace with granular security but don't require virtual apps and desktops.

Includes Workspace Standard functionality, plus advanced security controls for SaaS and web, unified endpoint management, and Content Collaboration Premium.

Workspace Premium Plus

₹1904 User/Month

Comprehensive workspace solution inclusive of hybrid deployment options for Citrix Virtual Apps and Desktops.

Includes Workspace Premium functionality, plus a cloud management option for Citrix Virtual Apps and Desktops.

KEEP YOUR DATA SAFE—AND YOUR COMPANY COMPLIANT

Go beyond traditional SSO to control access to apps based on where and how they're used, providing contextual security without limiting employee productivity.
