XcellHost Solutions

Enterprises

- Evolve your team from data collectors to risk managers
- Identify the third parties that pose you the greatest risk
- Create a prioritized risk-based mitigation strategy
- Continuously monitor your ecosystem
- Cost-effectively scale your program
- Benefit from crowd sourced mitigation efforts

Third Parties

- Never complete another shared spreadsheet again
- Identify and understand the remediation with the most yield
- Share a single assessment with multiple upstream partners
- Spend more time on proactive risk management
- Drive business growth with proactive security engagement

Approach

Always know which third parties pose the most risk to your enterprise.
Spot data risk sooner, respond to threats from third parties faster.
