

Switch Monitoring

Secure Cloud Services for your online business since 1999.
.Reliable .Secure .Speed .Scalable .Manageable .Compliant

Automatically discover switches in your network, actively monitor switch ports, & obtain interface level performance stats for a comprehensive Network Monitoring.

Features

Autodiscovery and comprehensive monitoring

Port-wise traffic stats

CPU utilization and other performance metrics

Custom SNMP monitors

Deep performance visibility

Precise downtime notifications

Key Performance Attributes.

- Active session count
- Backplane utilization
- Big buffer hits
- Big buffer misses
- Interface in giants
- Interface restart count
- Medium buffer hits
- Medium buffer misses
- Outstanding DNS requests
- Open files or sockets
- Oversize packets
- Undersize packets
- Total number of octets
- Interface in errors
- Jabber packets and more
