

Managed Decoy-As-a-Service

Secure Cloud Services for your online business since 1999.
.Reliable .Secure .Speed .Scalable .Manageable .Compliant

Network-based Threat Deception for Post-Compromise Threat Detection.

Quickly detect in-network threat activity across all attack surfaces as an attacker seeks target assets, moves laterally, & maintains presence.

Why Choose Us

Reconnaissance & Lateral Movement Detection

Authentic & Attractive Decoys

Easy To Deploy & Operate

High-Fidelity Alerts

Automation For Incident Response

Memory Exploitation Detection & Prevention

Modeling of threat scenarios customized to each application

Key Benefits

Accurate & early in-network threat detection for any threat vector

Comprehensive solution scalable to the evolving attack surface

Detailed attack analysis with substantiated alerts & forensic reporting

Extensive 3rd party integrations for automated quarantine, blocking, and threat hunting

Threat path visibility & attack visualization

EARLY DETECTION WITH ACTIONABLE THREAT INTELLIGENCE :

- CENTRALIZED THREAT INTELLIGENCE
- EASILY VIEW ATTACK DETAILS
- ACTIVATE INCIDENT RESPONSE
- ATTACK VISUALIZATION & REPLAY
- ATTACK & FORENSIC REPORTS

NETWORK VISUALIZATION .:

- NOTIFICATION OF DEVICE CHANGES
- WATCH NETWORK ADJUSTMENTS
- TIME-LAPSED PLAYBACK
- UNDERSTAND DECEPTION DEPLOYED
- STRENGTHEN DEFENSES

ATTACK VISUALIZATION .:

- NOTIFICATION OF DEVICE CHANGES
- WATCH NETWORK ADJUSTMENTS
- TIME-LAPSED PLAYBACK
- UNDERSTAND DECEPTION DEPLOYED
- STRENGTHEN DEFENSES
