

SCADA Monitoring

Secure Cloud Services for your online business since 1999.
.Reliable .Secure .Speed .Scalable .Manageable .Compliant

In Plant Controller for utility-scale facilities A true supervisory control & data acquisition system

What We Monitor

Real Time Signal & Alarms (SCADA/PLC)

Process Control Settings

Human Machine Interface

New Sensor tech (MQTT, CoAP)

Work Order Info (Failures)

External Data (Material Prices)

Network Wire Data

ERP Data (Financial ,CRM)

Benefits

Help solve issues faster

Passive Discovery & Analysis

Machine Learning & Artificial Intelligence

Classic Security Modeling

Visibility & Customizability

Reduced risk by using proven Technology & Protocols.
