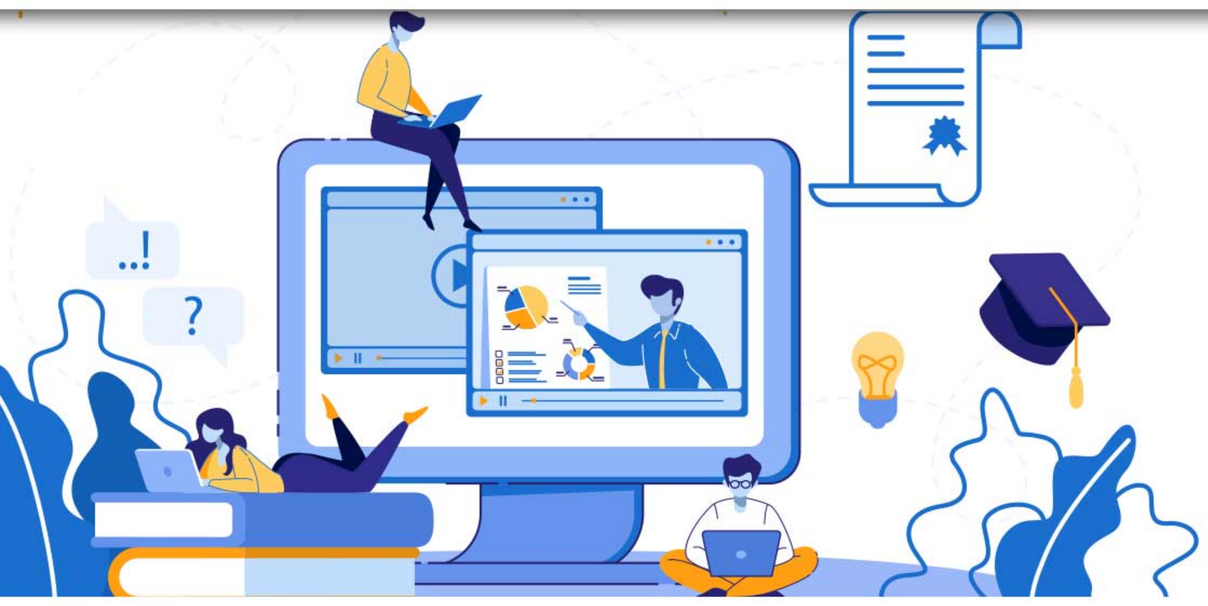
Cyber Security Awareness Training

Secure Cloud Services for your online business since 1999.

.Reliable .Secure .Speed .Scalable .Manageable .Compliant



The confidence you can rely on
The experience of your fears dissolving
The professional service you can afford

Key Features

- Coverage that includes major threat vectors
- Central management across all products and services (33%)
- Capabilities across threat prevention, detection, and response
- A combination of tightly coupled products and services
- Openness
- A platform that is offered in multiple deployment options

Key Benefits

- Social engineering
- Data and science-based risk mitigation
- Risk reporting
- User engagement
- Behavioural change
- Attack simulation

Cyber Security Training Roadmap

Security Professional

Security Essentials	SEC401 Security Essentials Bootcamp Style	GSEC
Control System Essentials	ICS410 ICS/SCADA Security Essentials	GICSP
Hacker Techniques	SEC504 Hacker Tools, Techniques, Exploits, and Incident Handling	GCIH

Security Operations

Intrusion Detection	SEC503 Intrusion Detection In-Depth	GCIA
Monitoring & Operations	SEC511 Continuous Monitoring and Security Operations	GMON
Defending Control Systems	ICS515 ICS Active Defense and Incident Response	GRID

Advanced Security Operations

SIEM	SEC555 SIEM with Tactical Analytics	GCDA
Cloud Security	SEC545 Cloud Security Architecture and Operation	GCWN
Purple Team	SEC599 Defeating Advanced Adversaries: Purple Team Tactics and Kill Chain Defenses	GDAT

Penetration Testing

Networks	SEC560 Network Penetration Testing and Ethical Hacking	GPEN
Web Apps	SEC542 Web App Penetration Testing and Ethical Hacking	GWAPT
Wireless	SEC617 Wireless Penetration Testing and Ethical Hacking	GAWN

Advanced Penetration Testing

Networks	SEC660 Advanced Penetration Testing, Exploit Writing, and Ethical Hacking	GXPN
Web Apps	SEC642 Advanced Web App Testing, Ethical Hacking, and Exploitation Techniques	
Purple Team	SEC599 Defeating Advanced Adversaries: Purple Team Tactics and Kill Chain Defenses	GDAT

Incident Response & Threat Hunting

Windows Forensics	FOR500 - Windows Forensics Analysis	GCFE
Endpoint Forensics	FOR508 Advanced Digital Forensics, Incident Response, and Threat Hunting	GCFA
Network Forensics	FOR572 Advanced Network Forensics: Threat Hunting, Analysis, and Incident Response	GNFA

Advanced Incident Response

Malware Analysis	FOR610 Reverse-Engineering Malware: Malware Analysis Tools and Techniques	GREM
Threat Intelligence	FOR578 Cyber Threat Intelligence	GCTI

Security Manager

Leadership Essentials	MGT512 SANS Security Leadership Essentials for Managers with Knowledge Compression™	GSLC
New to Cybersecurity	SEC301 Introduction to Cyber Security	GISF

Security Management

Strategic Planning	MGT514 Security Strategic Planning, Policy, and Leadership	GSTRT
Critical Controls	SEC566 Implementing and Auditing the Critical Security Controls - In-Depth	GCCC

Advanced Security Management

CISSP	MGT414 SANS Training Program for CISSP® Certification	GISP
Law & Investigations	LEG523 Law of Data Security and Investigations	GLEG

XcellSecure

Phishing Awareness Training & Simulation

Secure Cloud Services for your online business since 1999.

.Reliable .Secure .Speed .Scalable .Manageable .Compliant

XcellHost Support 24x7 Delightfull Support

Change employee behaviour with journey-based phishing awareness training and keep security top of mind.

Phishing gives you easy-to-use tools that will help you understand your organisation's phishing risk, educate your staff, nurture awareness and prove success across your organisation.

Main Features

Works on any Device

Access the training from any device with an internet connection.

Cloud Based

No expensive deployments, patching, or manual updates.

Scalable Solution

The flexible training allows you to easily add or remove staff.

Managed Service

The solution does not require internal resource allocation.

User Friendly

Suitable for staff with varying levels of technical expertise.

Learn More https://www.xcellhost.cloud/pats

XcellSecure | Phishing Awareness Training & Simulation

Comprehensive Reporting with an Administrator Console

Report on success across your entire organisation.

Monitor Phishing Risk

Track your organisation's phishing awareness posture and overall risk

Track Improvement

Track historical trends and statistical improvements

Measure Performance

Monitor and report on staff performance

Benefits

- Reduce employee clicks on malicious links
- Close the path of advanced malware to your systems.
- Measure, improve, & track your staff's ability
- Fight back against ransomware & executive fraud
- reduce the risk of scams and malware proliferation.

Version 09012019/CP/IN/PHISHING_ASSESSEMENT

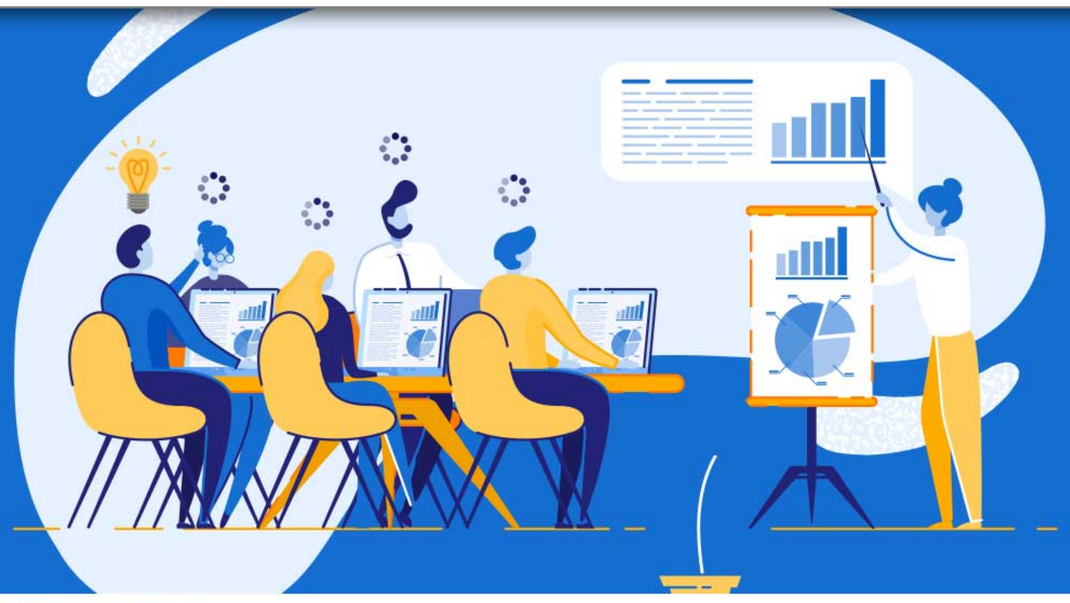
XcellSecure

Executive Training

Secure Cloud Services for your online business since 1999.

.Reliable .Secure .Speed .Scalable .Manageable .Compliant

XcellHost Support 24x7 Delightfull Support



Simulations and exercises to help business leadersview cyber issues through the prism of enterprise-wide impact.

We Train You

We Phish You

You See The Results

Key Features

- Highly engaging and interactive training content
- Mobile-friendly
- Full of real-life examples and applications
- Fully customizable
- SCORM and AICC compliant for easy LMS integration
- Preventing Phishing

Key Benefits

- Day in the Life – Security
- Data Protection Fundamentals
- Executive Training – Security
- Gramm-Leach-Bliley Act (GLBA)
- Insider Threats
- Incident Reporting

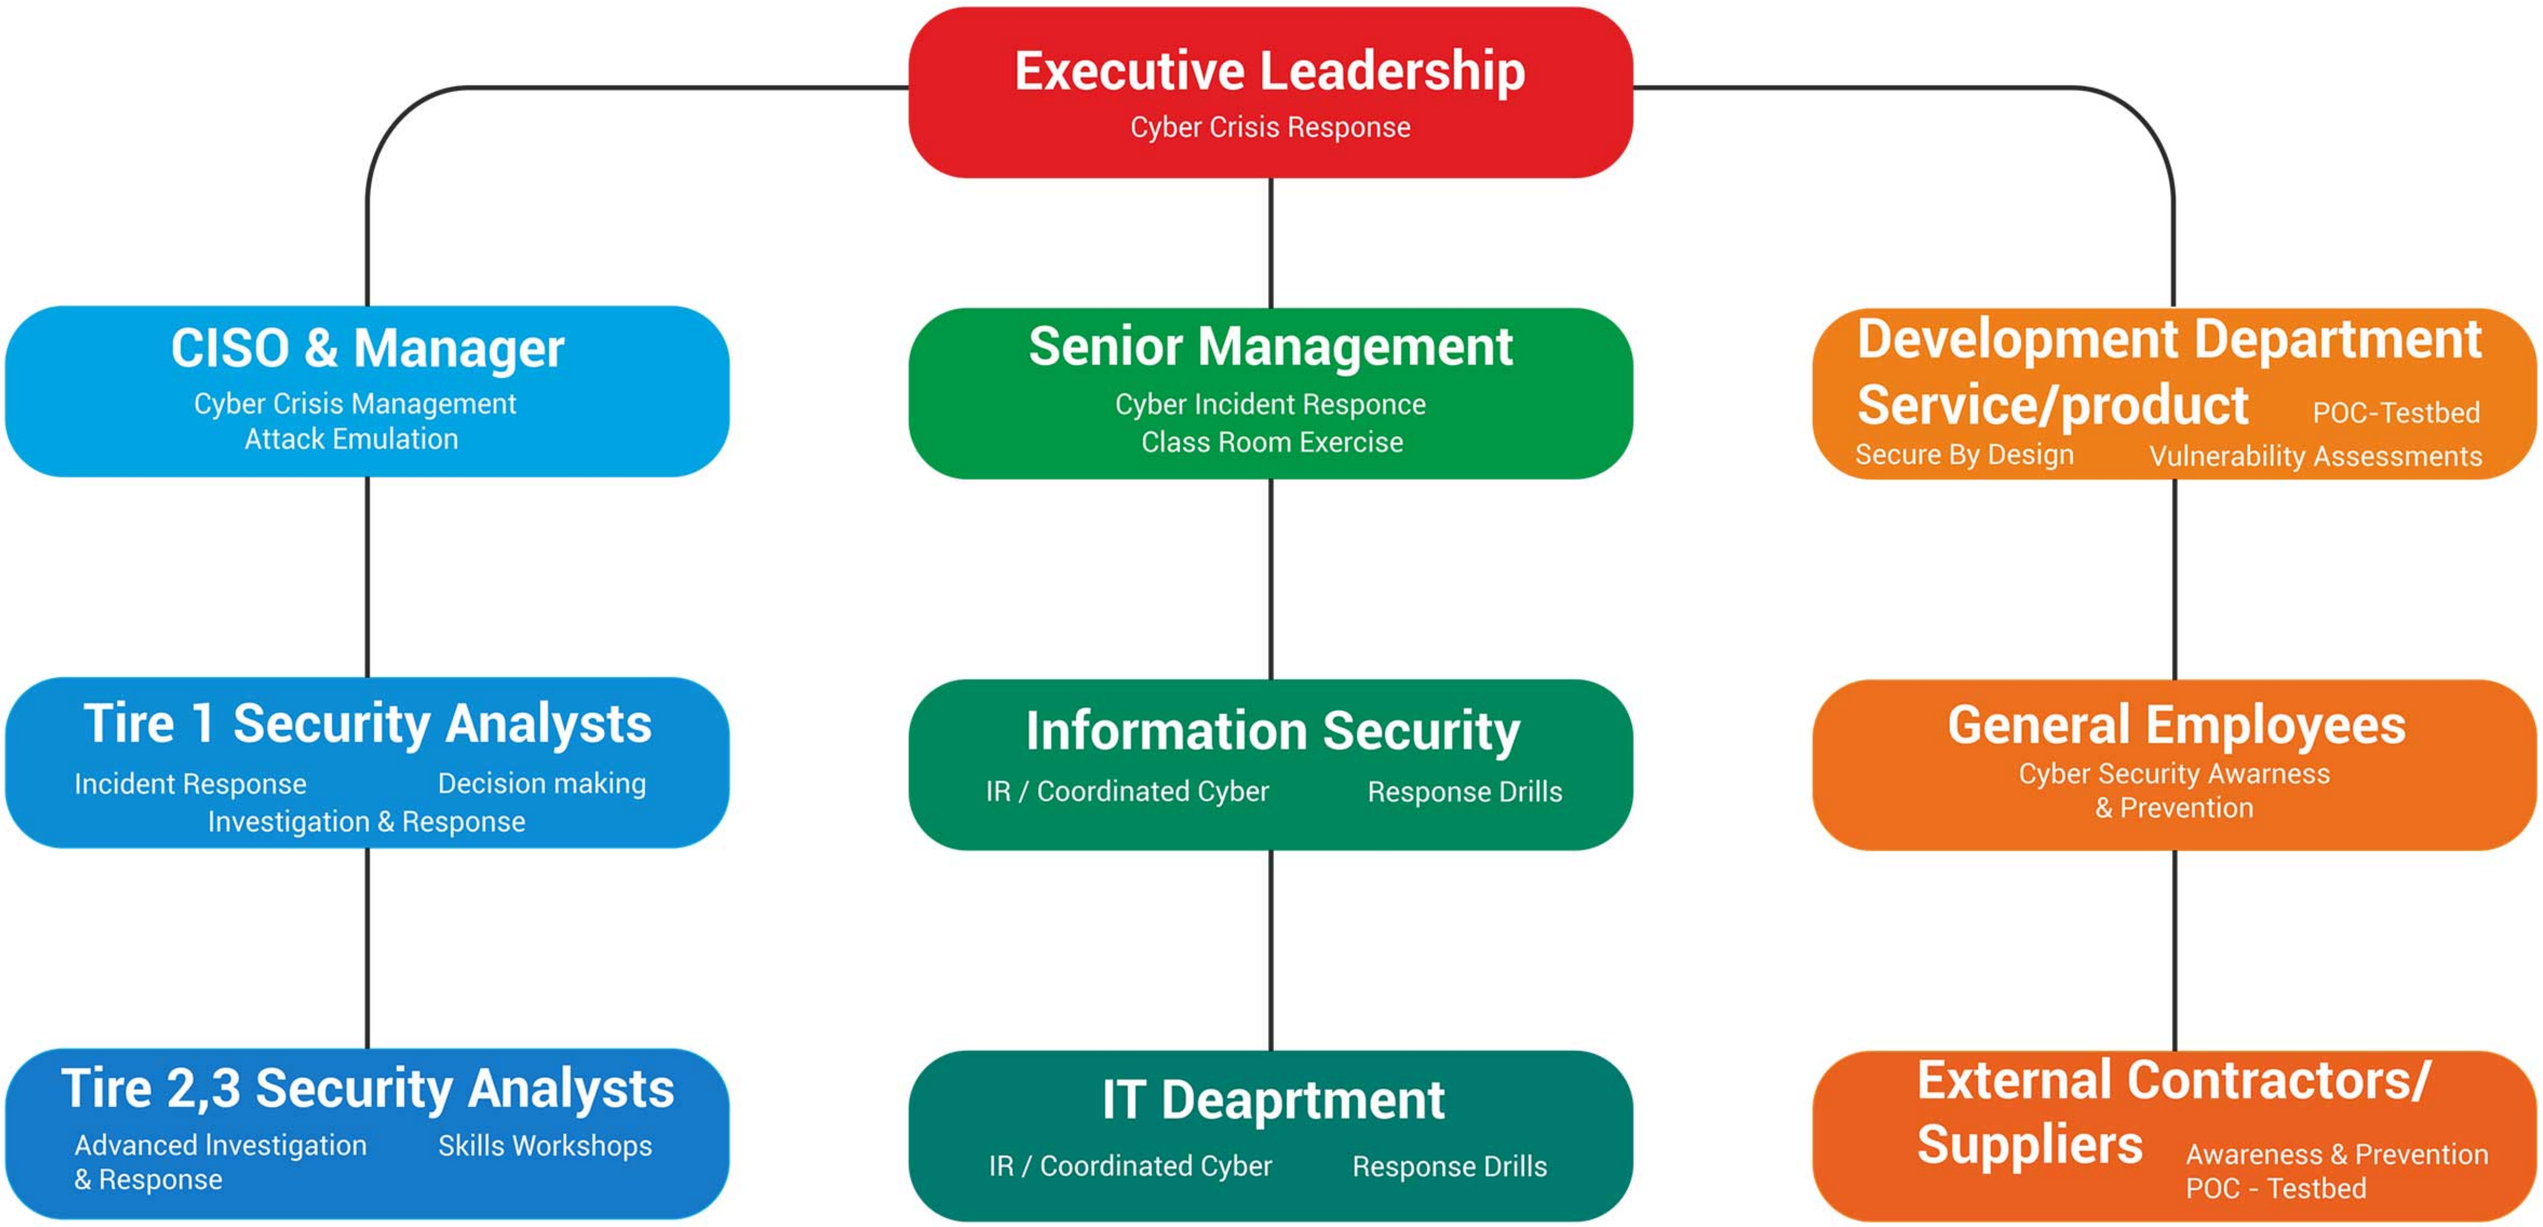
Training Provided By Us



SOC Training

Secure Cloud Services for your online business since 1999.

.Reliable .Secure .Speed .Scalable .Manageable .Compliant

SOC Analyst Cyber Security Training with SIEM.

We guide cyber security professionals on how to effectively use best practices to secure information systems & mitigate risks that arise due to cyber threats

Our SOC Training Includes

- Real-Time Analysis
- Intel and Trending
- Incident Analysis and Response
- Artifact Analysis
- SIEM Tool Lab access Training
- Scanning and Assessment
- SOC Tool Life Cycle Support
- Audit and Insider Threat

Benefits

- Dedicated Team
- Efficient Delivery
- Cyber Attack Continuum
- SIEM Tool Experiecne
- Real Time Attack Investigaiton
- Learn From Basic to Advacned
- Threat Hunting with the IOC's
- Network and Security Device Working

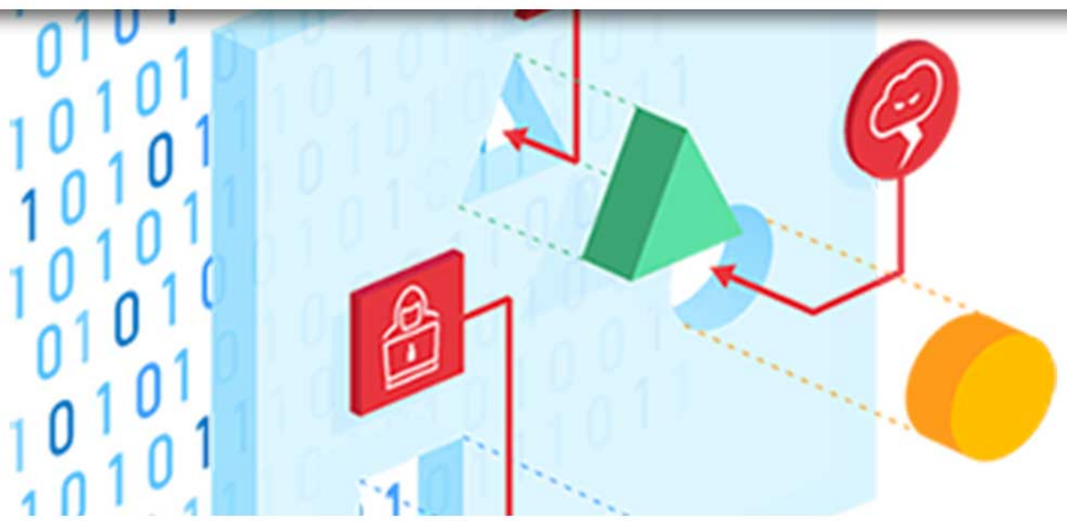
XcellSecure

CCSK Training

Secure Cloud Services for your online business since 1999.
.Reliable .Secure .Speed .Scalable .Manageable .Compliant

XcellHost Support 24x7 Delightfull Support



Cloud computing courses help in delivering the essential controls that allow security professionals to deploy cloud applications with security.

Our CCSK Training Includes

- Audit & Compliance Management
- Information Management and Data Security
- Portability and Interoperability
- Business Continuity, Traditional Security, & Disaster Recovery
- Data Center Operations
- Incident Response
- Application Security
- Key and Encryption Management
- Entitlement, Identity, & Access Management
- Virtualization
- Comprehend Security as a Service
- Electronic and Contracts Discovery
- Governance & Enterprise Risk Management
- Cloud Computing Architectural Framework

XcellSecure

NIST Framework

Secure Cloud Services for your online business since 1999.
.Reliable .Secure .Speed .Scalable .Manageable .Compliant

XcellHost Support 24x7 Delightfull Support

1 IDENTIFY

Identify and control who has access to your business information

Conduct background checks

Require individual user accounts for each employee

Create policies and procedures for cybersecurity

2 PROTECT

Limit employee access to data and information

Install Surge Protectors and Uninterruptible Power Supplies (UPS)

Patch your operating systems and applications routinely

Install and activate software and hardware firewalls on all your business networks

Secure your wireless access point and networks

Set up web and email filters

Use encryption for sensitive business information

Dispose of old computers and media safely

Train your employees

3 DETECT

Install and update anti-virus, anti-spyware, and other anti-malware programs

Maintain and monitor logs

4 RESPOND

Develop a plan for disasters and information security incidents

5 RECOVER

Make full backups of important business data and information

Continue to schedule incremental backups

Consider cyber insurance

Make improvements to processes/ procedures/ technologies
