A TIME CLOCK THAT WORKS AT YOUR PACE

Simple. Powerful. Affordable

Reduce administrative headaches in payroll prep without messy software installation.

OnTheClock

A web-based time & attendance management has never been easier! ConnectPay partner, OnTheClock provides comprehensive time clock solutions accessible from any device, anywhere in the world.

Getting Started is Easy

We get started by creating an initial admin account and loading employee information. Then employees simply follow the emailed login instructions to punch in/out, and request PTO.
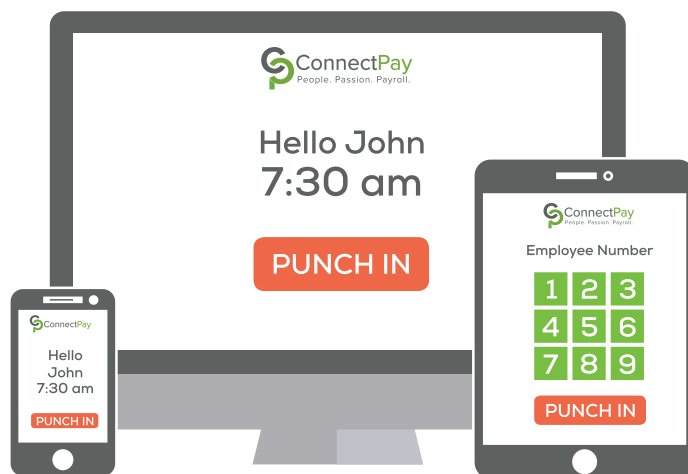

Security & Benefits

Data is encrypted for your security. The installation upgrades and unlimited customer support are all included. Increase accuracy with PTO tracking, job costing, shift scheduling, GPS punching, and more.

ABOUT CONNECTPAY

Simplifying your business is our business. We believe our highest priority is keeping clients **efficient, compliant, and protected**. When it comes to payroll, most companies are on auto-pilot and waste time and money with outdated systems. Not our clients. ConnectPay builds integrations with **the most powerful technology for your connectivity**.

ConnectPay
People. Passion. Payroll.

On The Clock brings you the latest technology in employee time clock services, easily integrated with ConnectPay Payroll.

WHAT CAN IT DO?

- **Allows staff to clock in and out** from authorized computers, phones or tablets
- Record Employee **GPS Punch Location**
- Restrict punching based on GPS locations
- Device, IP and Geo-Fencing authorization
- Fingerprint (biometric) readers **prevents buddy punching with secure algorithm**
WANT HAPPY EMPLOYEES?

Employees can **request and view PTO** right from their employee portal. For employee shifts, managers or admins can setup a see the schedule online. Plus, editing time cards is easy, allowing for adjustment of hours and punches without reprocessing.
PHONE APP

Employees can get our App and turn their mobile phone into a YES, we have GPS and IP settings to control/monitor where employees can punch.

WEB BROWSER

Do your employees work at a computer? If so, they simply go to a website to enter their credentials and punch in/out.

GROUP PUNCH

Group punch allow multiple employees to use a single tablet, phone or computer to rapidly punch. Combine a rugged wall mount case and an inexpensive tablet and you have a punch clock.
