3. Start learning!

Moomin Language School is a learning application, and it's important to follow its pedagogical path. Your child should use the application for 5-15 minutes every day. For best results, they should complete their one new daily study unit and perhaps some of the optional weekly extras. Old study units can also always be repeated, but don't overdo it! Keeping the daily learning time brief ensures that the child stays motivated and enhances their learning.
