

MOOMIN LANGUAGE SCHOOL TOOLS

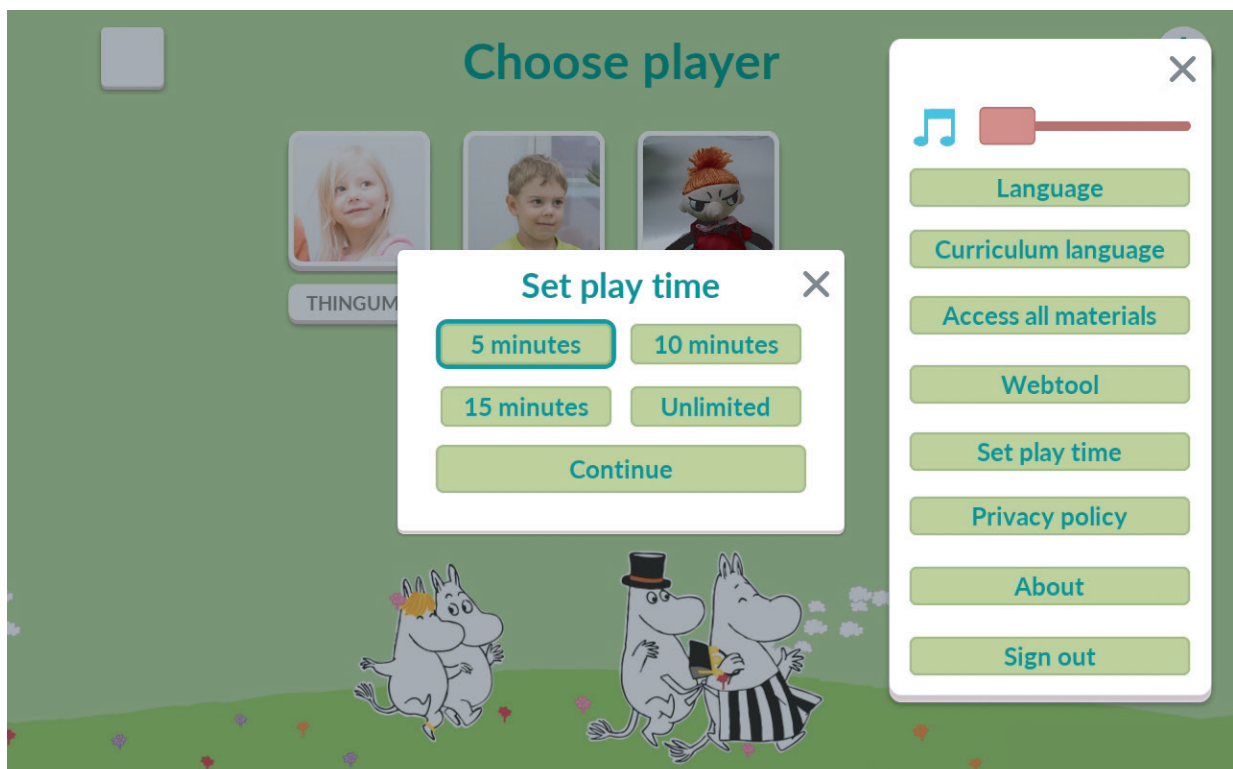

Thank you for choosing Moomin Language School!

Here's a quick guide to using the many tools we have to manage your groups and follow your students' progress.

Changing play time

You can change your group's play time in the application settings. You can find them behind the cog symbol in the upper right hand corner of the application screen.

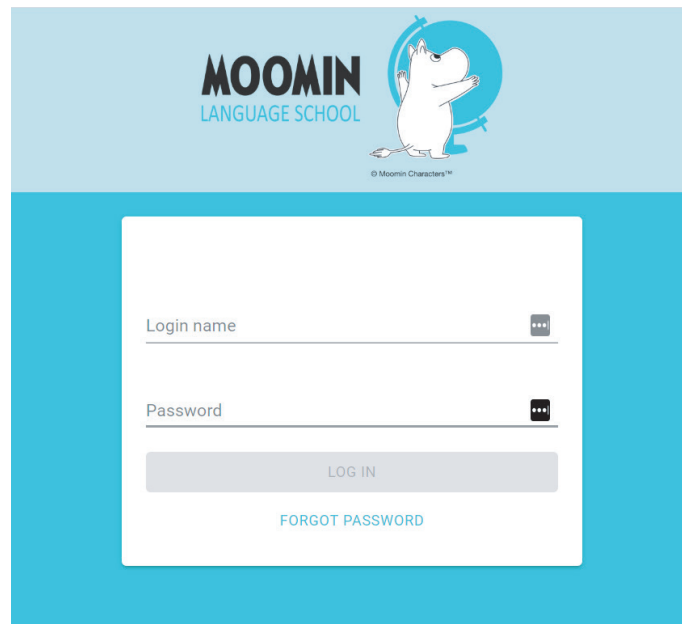

In the settings you can also see all the study units via 'Access all material' and navigate to the webtool.

Webtool

<https://tools.moominls.com> is where you can manage your groups and follow your students' progress.

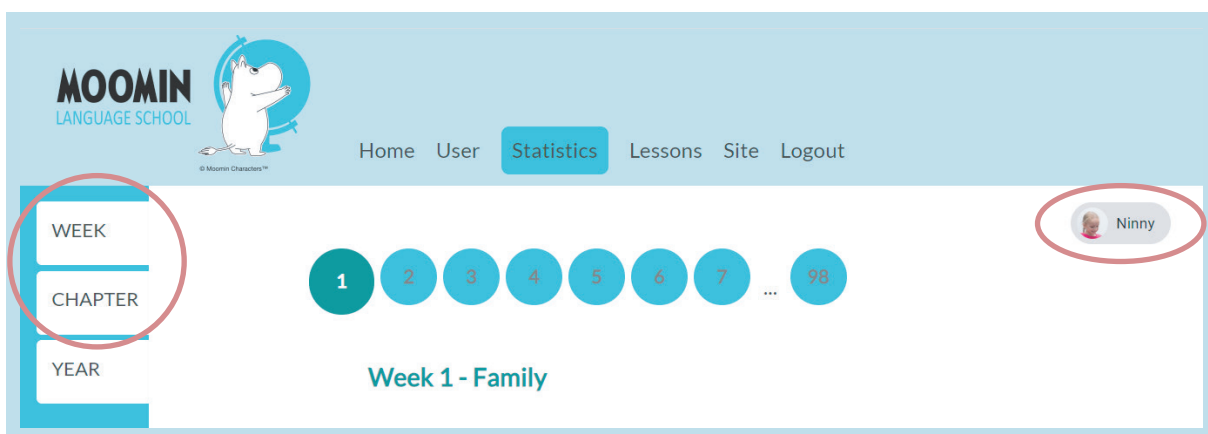

You log in to the application and the webtool with the same username and password.

The login page features the Moomin Language School logo at the top, which includes a cartoon Moomin character. Below the logo is a white login box with a blue border. Inside the box, there are two input fields: 'Login name' and 'Password', each with a small eye icon to toggle visibility. Below these fields is a grey 'LOG IN' button and a blue link for 'FORGOT PASSWORD'.

Progress reports

You can find your students' progress reports under 'Statistics'. There you can switch between students and see week reports and chapter reports in separate views.

The Statistics page shows a navigation bar with 'Home', 'User', 'Statistics' (highlighted), 'Lessons', 'Site', and 'Logout'. On the left, there is a sidebar with three buttons: 'WEEK', 'CHAPTER', and 'YEAR', with 'WEEK' circled in red. In the center, there is a row of circular buttons numbered 1 through 7, followed by an ellipsis and a button labeled '98'. Below this row, the text 'Week 1 - Family' is displayed. On the right, there is a user profile button labeled 'Ninny' with a small avatar, also circled in red.

Changing screen names

You can change your students' screen names in the webtool. This will only change the name you see in the application, not their login information! It will help with keeping track of each student's progress.
