

In a recent customer survey, our partners:

- ✓ Are satisfied with Selexis on an overall basis
- ✓ Are satisfied with Selexis as a development partner
- ✓ Feel Selexis is a valued partner
- ✓ Value Selexis' ongoing investment in science and technology
- ✓ Feel that any questions or problems are quickly addressed
- ✓ Find the team at Selexis responsive to their needs

- ✓ Would recommend Selexis to an associate
- ✓ Feel Selexis is responsive and flexible in addressing project needs
- ✓ Feel Selexis takes a collaborative approach to their business relationship
- ✓ Feel their business relationship with Selexis is built on trust and respect
- ✓ Agree that Selexis makes them feel like a valued partner
- ✓ Agree that SUREtechnology Platform™ is an important reason why they partner with Selexis
- ✓ View Selexis as a scientific and technology leader in supporting biopharmaceutical drug and vaccine development

## SELEXIS SURE CELL LINE DEVELOPMENT™

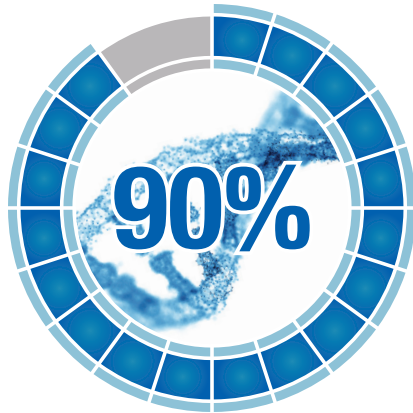

Proprietary technology platform and comprehensive services for fast and reliable cell line development:

- Highly adaptable non-viral vectors with no carrying-capacity limitation
- No gene amplification required
- Novel high-throughput approach to address product-specific expression bottlenecks
- Proven track record in the expression of monoclonal antibodies, enzymes, Fc-Fusions, GPCRs, ion channels...
- Full cell line data package: detailed vector information, host cell line pedigree, and complete cell line documentation ready for IND filing
- Precise mapping of the transgene integration site(s)
- World class science, project management and highly efficient tech transfer to CMOs

## HIGH PERFORMANCE, STABLE RESEARCH CELL BANKS

- No viruses
- Strong expression vectors
- High performance host cell
- Chemically defined, serum-free medium
- Robust and easily transferable feed strategy

- ✓ When thinking of quality partners, think of Selexis first
- ✓ Are satisfied with the SUREtechnology Platform on an overall basis
- ✓ Would use the SUREtechnology Platform again
- ✓ Feel Selexis is an easy company to deal with
- ✓ Are satisfied with the level of scientific expertise and technical support provided by Selexis
- ✓ Feel the Selexis scientific team is responsive to all technical and development questions
- ✓ Are satisfied that Selexis looks out for their interests
- ✓ Feel they can rely on Selexis as a long-term business partner
- ✓ View business relationships from a long-term perspective, not just as a short-term transaction
- ✓ Feel that Selexis is committed to helping them meet their development needs
- ✓ View Selexis as the 'gold standard' in cell line development

Driven by Excellence.  
 Guided by Science.  
 Valued by Partners.

## WHAT OUR PARTNERS ARE SAYING

*We are excited to work with Selexis, a pioneer in bioproduction that offers the right balance of speed, technology, and flexibility to generate cell lines for our lead program.*

*Good productivity and quality for a hard to express protein.*

*Selexis is a trusted name with good industry record.*

*Technology benefits in improving quality/expression for mammalian cell lines are of great benefit.*

*Great client support — very responsive.*

*I had many interactions with personnel at Selexis and found that they were attentive and responded rapidly to my questions.*

*I would definitely use Selexis when we develop our next mAb (and would be interested what else is offered).*

*Working with Selexis, a company that set the pace of innovation in protein expression and established new benchmarks in bioproduction for more than a decade, will allow us to drive our programs forward with even greater speed and flexibility.*

Connect with the leaders in cell line development. From difficult-to-express to novel proteins, Selexis is your partner of choice: [www.selexis.com](http://www.selexis.com)
