

Free Faculty Pilot Offer

Experience true community building
at no cost for an academic term

About Yellowdig

The Yellowdig platform builds learning communities that are relevant, engaged and focused on outcomes.

What is the Pilot Opportunity?

The Free Pilot is an opportunity for you to experience Yellowdig within the context of your own learning environment, for free, for a full academic term (e.g. semester).

What kinds of learning communities could I build with Yellowdig?

Yellowdig can accommodate curricular and co-curricular learning communities offered in any modality. Examples of communities we support include:

- STEM
- Business
- Humanities
- Arts & Sciences
- Undergraduate & Graduate Courses
- High School Courses
- Faculty Communities
- International Relationships

What type of support and insights can I expect?

The Client Success team will help you both with the set-up and management of your Yellowdig Experience. Throughout your Pilot you'll have access to the Community Health Dashboard, the Instructor Support Community and other tools to help you get the most out of Yellowdig. You will also gain access to a Pilot Experience Report, detailing statistics and insights unique to your course.

Accessing Your Free Pilot

1. [Complete the Free Pilot Registration form](#). This information will help our Client Success team get to know you, and understand how best to help set up your learning community.
2. [Complete the Instructor Certification Course](#). The Faculty Certification Course is a short one hour course that teaches faculty how to use Yellowdig effectively to increase class engagement and learning outcomes. There are also optional modules including STEM use cases, co-curricular use cases, and network administration to help you best prepare for your unique situation.
3. [Launch your Free Pilot with our Client Success Team](#). Yellowdig's Client Success team will help you with everything you need to get started, including your network setup as well as connecting to your LMS (if desired). The team is also available to answer questions and provide support throughout your entire Free Pilot.

Educators are able to register for the Free Pilot Opportunity until June 30, 2021.
