

Universal Remote Slate RX

Fully cleanable remote with built-in Antimicrobial properties

Designed specifically for hospitality and healthcare applications, Slate RX ensure reliable performance, unit integrity and can be cleaned daily by hotel staff with the use of common hospitality cleaning products.

Slate RX comes with anti-microbial additives which offers protection against bacteria that can cause contamination and infection, as well as those responsible for odors and staining. The anti-microbial properties also protect the product against degradation, extending its use.

Fully cleanable remote with built-in antimicrobial to protect the remote

Remote has a smooth top-case with no key holes so it can easily be sprayed with a cleaner and then dried with a cloth or can be wiped-down with disinfectant wipes. Durable design allowing the remote to survive over three years with daily use of harsh cleaning products.

Optional Slate RX remote stand

Makes remote easy to locate and offers promotional surface for hotel branding, promotion of events, content or to inform guest of a clean remote.

Features

Theft-resistant battery compartment

- Battery door on the Slate RX remote is actually the full bottom case itself. Battery door is secured by a hex-screw and can be labeled for “commercial use only” to deter theft
- Battery compartment includes two AA size batteries for far longer battery life than most competing hotel remotes using AAA size batteries. This greatly reduces the amount of time and money the hotel spends on changing batteries

Customizable and replaceable top case

- The Top Case can be custom Designed for your brand or promotional needs and can be easily replaced by housekeeping

Upgradability

- Battery compartment also houses the 6-pin serial port that is used for upgrades and programming by hotel personnel using UEI’s EZ Updater tool. This allows each property to program one “Master” remote and then quickly clone all the other remotes for that location

Easy to use

- Easy-to-read key layout makes remote simple to use
- Device mode-less operation eliminates mode confusion
- The ability to stand the remote upright makes it easy to locate and to notice for new guests entering the room
