Healthcare Highways®
HEALTH PLAN

Healthcare Highways Health Plan
Preventative Care Coordination Benefit
Annual Wellness Exam

Our priority here at Healthcare Highways is your family's health. We are laying the groundwork for a healthy tomorrow by offering preventive services, available at no cost to covered health plan members.

Please take full advantage of your preventive care benefits and other available wellness resources. Talk with your doctor about ways to improve your health; there is no better time than now to get started – and head off potential health problems before they begin.

Our Care Coordination team is here to help you.

The good news is that as a health plan member, you have access to complimentary care coordination services, which includes a quality and prevention benefit to help you keep track of visits and check-ups.
Our records indicate that you or one of your family members is due for an annual wellness exam.

Before you schedule an appointment for a wellness exam, make sure that your provider is in-network. If you need help finding an in-network provider, our Care Coordination team can help you locate one and answer any questions you have along the way.

Call for assistance.

If you need assistance with finding an in-network provider or have more questions **please call your care coordination team at 1-844-218-3906.**
