WHAT CHOICES DO I HAVE REGARDING MY PERSONAL INFORMATION?

Ruby provides you the ability to exercise certain controls and choices regarding our collection, use and sharing of your Personal Information. Depending on where you reside, your options to control your Personal Information may include some or all of the following:

- Changing your subscription to the Services.
- Changing your preferences for how and about what we communicate with you.
- Correcting, updating, and deleting the Personal Information in your account. Please note that certain legal obligations may limit or prevent our ability to fulfill these requests, and that copies of information that you have updated, modified or deleted may remain viewable in cached and archived pages of the Site or Software for a period of time.
- Requesting access to the Personal Information we hold about you.
- Choosing whether to receive marketing communications from us, including promotions, surveys, and information about products and services that may be of interest to you.
- Controlling how the cookies we use interact with your browser.

At any time, you may exercise any of these controls and choices, express concerns, lodge a complaint, or obtain additional information about the use of your Personal Information by contacting us via the customer dashboard or by email at privacy@ruby.com. Read more about privacy rights available to residents of **California**, the **European Union** and **Canada**.

Do Not Sell My Personal Information. Ruby does not share your Personal Information in direct exchange for money, so we don't sell your Personal Information in the literal sense. Like most companies, we share data with our service providers and other companies in order to help us generally enhance your experience with our Site and Services and, in some cases, deliver more meaningful ads to you. The law defines "sell" very broadly and, in some cases, sharing data for these purposes may be viewed as a "sale" under applicable privacy laws. You can opt out of these "sales" of your Personal Information by following this **Do Not Sell My Personal Information** link.

Do Not Track. Do Not Track signals are signals sent through a browser informing us that you do not want to be tracked. Currently, our systems do not recognize browser "do-not-track" requests. You may, however, disable certain tracking as discussed below.

CALIFORNIA PRIVACY RIGHTS

This section provides residents of the State of California ("**California Consumers**") with the disclosures and notices required under the California Consumer Privacy Act of 2018 ("**CCPA**"). The following paragraphs apply solely to California Consumers and describe the specific rights afforded under the CCPA.

Employee Data Exception. In many cases, the Personal Information we collect about you is in a business-to-business context when you are acting as an employee to a Customer or potential in the performance of your job duties. Please note that Personal Information collected and used in this context is not protected Personal Information under the CCPA.

Without limiting the foregoing, California Consumers may exercise the following rights over their Personal Information, subject to our receipt of a verifiable **Consumer Privacy Request**, as well as any exceptions and limitations that may apply.

- **Right to Disclosure.** You have the right to request that we disclose information to you about our collection and use of your Personal Information over the past 12 months, such as (i) the categories of Personal Information we have collected about you; (ii) the categories of sources for the Personal Information we have collected about you; (iii) our business purpose for collecting or selling that Personal Information; (iv) the categories of third parties with whom we share that Personal Information; and (v) if we sold or disclosed your Personal Information for a business purpose, two separate lists stating (a) sales, identifying the Personal Information categories that each category of recipient purchased; and (b) disclosures for a business purpose, identifying the Personal Information categories that each category of recipient obtained. Ruby is only required to respond to two disclosure requests within a 12-month period.
- **Right to Access.** You have the right to request that we provide you with access to specific pieces of Personal Information we have collected about you over the past 12 months (also called a data portability request). If you submit a right to access request, we will provide you with copies of the requested pieces of Personal Information in a portable and readily usable format. Please note that Ruby is prohibited by law from disclosing copies of certain pieces of Personal Information (e.g., government identification numbers, financial account information, and passwords or security questions and answers) because the disclosure would create a substantial, articulable, and unreasonable risk to the security of the information, our business systems, or your account. Ruby is only required by law to respond to two access requests within a 12-month period.
- **Right to Deletion.** You have the right to request that we delete any of your Personal Information that we collected from you and retained, with certain exceptions. Ruby may permanently delete, deidentify, or aggregate the Personal Information in response to a request for deletion. If you

submit a right to deletion request, we will confirm the Personal Information to be deleted prior to its deletion, and we will notify you when your request is complete.

- **Right to Nondiscrimination.** We will not discriminate against you for exercising any of your CCPA rights. Unless permitted by law, we will not (i) deny you goods or services, (ii) charge you different prices or rates for goods or services, (iii) provide you a different level or quality of goods or services, or (iv) suggest that you may receive a different price or rate for goods or services or a different level or quality of goods or services, because you exercised a right under the CCPA.
- **Right to Disclosure of Marketing Information.** California's Shine the Light Act (Civil Code sections 1798.83-1798.84) entitles California residents to request certain disclosures regarding Personal Information sharing with affiliates and/or third parties for marketing purposes.

We endeavor to respond to a verifiable **Consumer Privacy Request** from a California Consumer within 45 days of receipt. If we require more time, we will notify you in writing of the reason and extension period. We will deliver our written response by mail or electronically, at your option. Any disclosures we provide will only cover the 12-month period preceding receipt of the verifiable consumer request. If we cannot comply with part or all of your request, we will explain the reasons in our response.

EUROPEAN UNION PRIVACY RIGHTS

We adopted this section to comply with the European Union's General Data Protection Regulations ("**GDPR**"). This section applies solely to residents of the European Union ("**EU Residents**"). Ruby provides the Services to individuals located in the EU in our capacity as a data processor to our Customers. However, if an EU resident interacts with Ruby as a Customer or potential Customer, Ruby collects and processes their Personal Information as a data controller. If you are an EU Resident, you have the following rights in relation to the Personal Information we hold about you:

- **Right to know** how we process your Personal Information. We have set the required notices in this Privacy Notice. We may provide you with additional notices about other ways we process your Personal Data, such as by sending you a notice via email or by other means of communication.
- **Right to access** your Personal Information. You can request to access your Personal Information. Upon request, we will provide you with a copy of your Personal Information, along with details about the types of Personal Information we process, why we process it, and any third parties we work with to collect Personal Information on our behalf. We may have one or more legally valid reasons to refuse your request in whole or in part, for example in order to protect the rights of other individuals.
- **Right to restrict processing** of your Personal Information. You can request that we restrict the processing of your Personal Information if (i) the data is inaccurate, (ii) the processing is unlawful, (iii) we no longer need the Personal Information, or (iv) you exercise your right to object.
- **Right to rectify your Personal Information.** If you become aware that the Personal Information that we hold about you is incorrect, or if your situation changes (e.g., you change address), please inform us and we will update our records.
- **Right to data portability.** In some circumstances, we are required to provide your Personal Information to another organization at your request and in a structured, commonly used machine-readable format, so that the other organization can read and use it.
- **Right to erasure** (a.k.a. the "right to be forgotten"). Upon your request, and in certain circumstances and where we are required to do so by law, we are required to delete your Personal Information. This right is not absolute, and we may be entitled to retain and process

your Personal Information despite your request. If you make this request, we balance certain legal, contractual and business interests against your right to request the deletion of your Personal Information.

- **Right to object** to certain processing of your Personal Information. Upon your request, and in certain circumstances and where we are required to do so by law, we will limit our processing of your Personal Information as you request.
- **Right to not be subject to Automated Decision-Making (“ADM”)**. Ruby offers a chatbot Service that integrates with Customer websites and apps to generate leads from consumer inquiries, schedule and book appointments, and collect payments. The chatbot uses ADM to generate a response to your chat communications. The exact logic of the ADM may change based on the machine learning model employed. We use ADM in this manner based on our legitimate interest to provide our Customers with their subscribed-to Services. The chat bot Service only collects the minimum amount of Personal Information needed for this feature to function. You always have the option to communicate with a Customer by phone or email if you wish to avoid your Personal Information being processed using ADM. You may exercise your privacy rights over Personal Information processed using ADM, and you have the right to object to a decision made using ADM if the decision would produce legal effects or significantly affects you in another way.

EU Residents may exercise these rights over their Personal Information, subject to our receipt of a verifiable **Consumer Privacy Request**, as well as any exceptions and limitations that may apply.

CANADIAN PRIVACY RIGHTS

We adopted this section to provide supplemental information in compliance with Canada’s Personal Information Protection and Electronic Documents Act (“**PIPEDA**”). This section applies solely to residents of Canada where PIPEDA applies (“**Canadian Consumers**”). PIPEDA gives Canadian Consumers specific rights regarding Personal Information offering details on an identifiable person without the inclusion of name, title, telephone number and business address of an employee of a business or organization. The following paragraphs describe PIPEDA rights and explain how to exercise those rights.

- **Right to know** why we collect, use and distribute the Personal Information we process. We have set the required notices in this Privacy Notice. We may provide you with additional notices about other ways we process your Personal Data, such as by sending you a notice via email or by other means of communication.
- **Right to expect** us to collect, use or disclose Personal Information responsibly and not for any other purpose other than which you consented. We set your expectations in this Privacy Notice, and collect express or implied consent at various stages of collection or processing. If we collect or use your Personal Information based on your consent, we will also notify you of any changes and will request your further consent as needed. You may withdraw your consent at any time with reasonable notice by contacting us at privacy@ruby.com.
- **Right to accuracy** of your Personal Information. We take steps to reasonably ensure that your Personal Information we are using is accurate. In most cases, we rely on you to ensure that your information is current, complete and accurate. We provide methods for you to correct, update, and delete inaccurate Personal Information in your account, and we will provide you with reasonable assistance to ensure that your Personal Information is accurate in our systems and with our service providers.
- **Right to access** your Personal Information. Upon written request and identity authentication, we will provide you with your Personal Information under our control, information about the

ways in which that information is being used and a description of the individuals and organizations to whom that information has been disclosed. We will make the information available within 30 days or provide written notice where additional time is required to fulfil the request. If limited by law or potential infringement on another's privacy rights, we may not be able to provide access to some or all of the Personal Information you request. If we must refuse an access request, we will notify you in writing, document the reasons for refusal and outline further steps that are available to you.

Canadian Consumers may exercise the above rights over their Personal Information, subject to our receipt of a verifiable **Consumer Privacy Request**, as well as any exceptions and limitations that may apply.

CONSUMER PRIVACY REQUESTS

Through the Services, Ruby provides methods for you to directly access, edit, delete or export certain Personal Information Ruby processes in your use of the Services. If you wish to exercise your rights under applicable privacy laws beyond these methods, please submit a verifiable Consumer Privacy Request:

- using our online **Consumer Privacy Request**.
- by email at privacy@ruby.com.
- toll free at 866-611-7829.

Ruby may only legally fulfill a Consumer Privacy Request when we have sufficient information to verify that the requester is the person or an authorized representative of the person about whom we have collected Personal Information, and to properly understand, evaluate, and respond to the request. Note that if we process your Personal Information in our capacity as a service provider or data processor to a Customer, we may be required to instruct you to submit your request to that Customer.

We do not charge a fee to process or respond to a verifiable request unless we have legal grounds to do so, such as requests that are excessive, repetitive, or manifestly unfounded. If we determine that the request warrants a fee, we will tell you why we made that decision and provide you with a cost estimate before completing your request.

HOW DOES RUBY KEEP MY PERSONAL INFORMATION SECURE?

Data Security. We implement technical, organizational and physical measures in place to help protect your information from unauthorized access, processing or disclosure. We maintain internal policies to govern the collection, processing, access, and handling of data. We use technical safeguards to protect information online and stored on our systems. Your Account. When you sign up or create an account with us, you will have a login and password. We encourage you to take steps to protect against unauthorized access to your password, phone, and computer by, among other things, signing off after using a shared computer, choosing a robust password that nobody else knows or can easily guess, and keeping your login and password private. If you sign up for receptionist services, we will issue a call forwarding number to you. It is your choice as a Customer whether to share your call forwarding number with others. We are not responsible for any lost, stolen, or compromised passwords or call forwarding numbers, or for any activity on your account via unauthorized activity.
