## Why choose Custom Craftworks?

Custom Craftworks has a long standing reputation for building thoughtfully constructed, long-lasting products. The company was acquired by Pivotal Health Solutions in 2009, and has been crafting high-quality massage tables since 1986. Custom Craftworks has proven to be one of the top brands for massage and spa equipment in the industry. We constantly move forward and improve, striving to deliver unmatched value to our customers in product, service and performance.

## Everyone talks about quality, we deliver it.

Thoughtfully created, our engineers design our products with input from industry experts and professionals so each product meets the ergonomic needs of therapists and comfort requirements of clients. Our skilled craftsmen and women build these products from materials constructed to withstand the conditions that massage and treatment techniques require. Our products are continually being updated to adapt to changing needs and better serve the massage community. We are customer driven in all we do and strive daily to enhance and improve their experience with us.

## What people are saying about this best seller...

"The only tables I will buy in the future! I have purchased 3 of the Hands Free models for my practice over the past couple years. The fact that you can raise and lower the table while standing anywhere around it is a big deal when your hands are always on the client. I have less fatigue, my back pain is gone and my clients comment on how professional they are! I also love it for its convenience for the elderly and those with accessibility concerns. BEST tables you can buy!"

## FMST Tools Fluid Motion Soft Tissue Tools

Most massage therapists work by themselves either in a mobile setting, private office, fitness centers, chiropractic offices, hospitals or spas. The biggest concern in the profession is wear and tear on the therapist's body. Manual techniques many times put the therapist in an awkward position to perform work on an area of the patient. The Fluid Motion Soft Tissue Tools have been designed to increase efficiency for the practitioner and the massage therapy business. Many therapists are trained and would rather use their hands, but the FMST Tools can also be helpful for the massage therapist to achieve great results by identifying primary tissue restrictions and decreasing wear and tear on the hands and body of the therapist.

**Ambidextrous design and multiple edges for all areas of the body.**

## Perfect for **SPORTS MASSAGE**

For most of us, massage is the ultimate therapeutic treat that we indulge in once a month or so. To a professional athlete, massage therapy is an everyday and on-the-field essential.

**According to AMTA, research shows that massage benefits for pro athletes (or you) include:**

- Reduce muscle tension
- Help athletes monitor muscle tone
- Promote relaxation
- Increase range of motion
- Decrease muscle stiffness and soreness after exercise
- Enhance athletic performance
- Help prevent injuries when massage is received regularly

## NATURAL TOUCH UPHOLSTERY CHOICES:

”

The best thing about this table are some of the features that it has. I'm an older massage therapist, so anything to help me with my lower body mechanics, helps me to continue working as pain free as possible. This is a huge goal for me.

This table can be lowered and it can be raised - so if I push down on it, it goes up. I can access that bar from anywhere around the table. I don't have to be in a specific location to do that. This table is great - it can lower all the way down, so accessibility from a wheelchair is a real plus for people who can't get on it from a certain height - I can match the height that they need. Thanks for being a great company to purchase from!

## What are schools SAYING?

"As a massage educator, our school has used Custom Craftworks for years. The products are extremely easy to order, delivered in a timely manner, and in good, working condition. They offer great customer service and are always positive to interact with!"

**Jamie Laird, DSM**  
Iowa School of Beauty

Custom Craftworks is passionate about helping schools and students by subsidizing classroom equipment. We believe students deserve to learn the art of massage utilizing high quality tables, chairs and accessories.

## A Custom Moment

Rachel Romanelli  
Owner, Worker B Wellness

”

I have been in the massage therapy profession since 1995, and I've used Custom Craftworks since I was a student – that's over 2 decades of using Custom Craftworks tables, bolsters and chairs.

I really appreciate Custom Craftworks in the fact that they've really grown up with our profession and have changed designs to accommodate customers so that they can be comfortable and so practitioners can deliver the best possible service they can. Patients are very impressed with the ability of the table to raise and lower. Having a table that is designed with care in mind makes them feel like they have come to the right place because we have invested in massage equipment that will take care of them.
