Classic Series Hands Free Lift Back Electric Table

The Classic Series Hands Free Lift Back Electric Table features a manually adjustable lift back that meets the needs of different massage services and allows for multiple positions to keep clients comfortable. The table also allows therapists to easily control the height of the table with the hands-free dual foot bar control that is built-in along both bottom sides of the table. The easy-to-use dual foot bar control raises the table as you gently push down on it with your foot and lowers as you lift up. Because of the table's design and functionality, therapists can move freely around the table without losing contact with their client. The durable, precision cut steel construction is complete with a whisper quiet lift system and easy-to-operate caster system to make moving the table a breeze. The table includes our standard upholstery with 3" deluxe wrap foam as well as a dual action face rest and pillow.

TThera-P-3007
