### MIGRATING HEALTH AND SAFETY DATA FOR GLOBAL AGRIBUSINESS

#### The Challenges

A global agribusiness was in the process of migrating to a new system for their health and safety data. Keeping clear business requirements was difficult, causing their data engineering team problems.

#### The Solution

In Time Tec came alongside their team to support the migration. We worked with the product owners to talk about what was and was not working, targeted needs, and created a plan. We supported the integration and managed the transition.

#### The Results

*Improved transition workflow:* Reliable access during transition and continued support after transition.
