

# CONNECT TO CANVAS

Powered by  IN TIME TEC

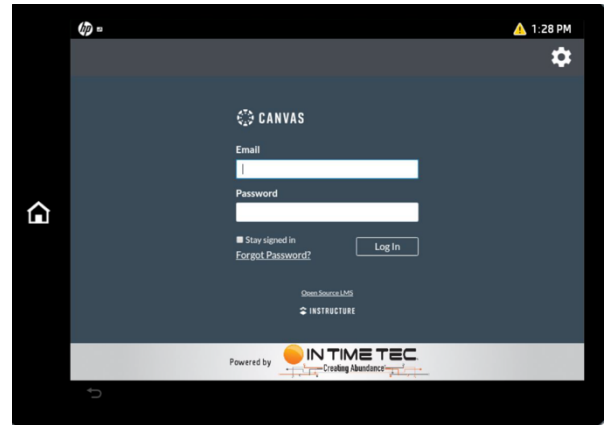

## 1. Description

Connect to Canvas is a HP Workpath application for educators, administrators, and students. Users can securely scan important documents directly into Canvas and print using any HP Workpath-enabled MFP.

## 2. Key Features

### 2.1 Multi-user role login from a HP MFP

Users can login to the application as a Teacher, Student, Administrator, or Manager. After logging in, they can then scan or print any file attachment directly from the MFP control panel.

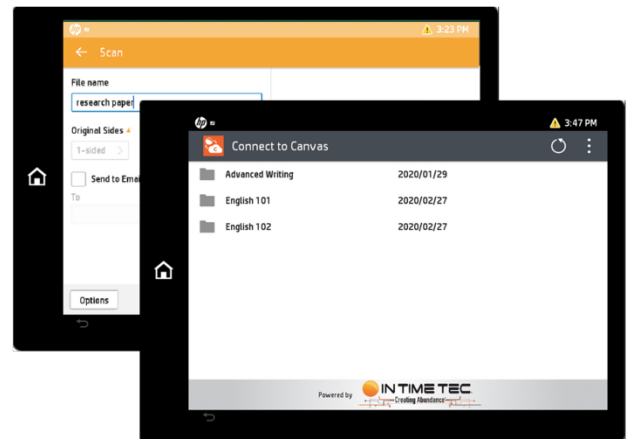

### 2.2 Scan and print directly from “My Files”

Users can upload or scan documents directly to “My Files”, using the Connect to Canvas app.

### 2.3 Print files from the Course Module & Assignment

Users can choose the courses or assignments and print the file instantly, using the Connect to Canvas app.
