

# CONNECT TO MOODLE

Powered by  IN TIME TEC

## 1. Description

Connect to Moodle is a dedicated application for educators, administrators, and students. Users can securely scan and print important documents directly with Moodle, using any Workpath-enabled HP MFP.

## 2. Key Features

### 2.1 Multi-user role login

Administrators, Teachers, Managers, or Students can login using their Moodle credentials straight from the MFP control panel. This allows scanning or printing from any compatible HP device.

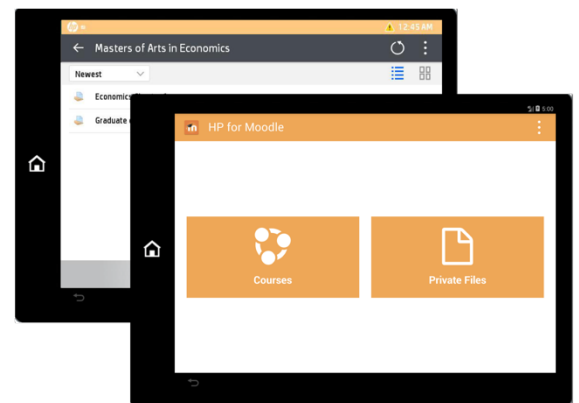

### 2.2 Scan and Print from “Private Files”

Users can upload the scanned document directly from the printer using the Connect to Moodle app. Similarly, files stored in “Private Files” can also be directly printed.

### 2.3 Print and Scan files from “Courses”

Users can print and scan files stored in “Courses” instantly from the printer using the Connect to Moodle app.
