

# CONNECT TO OUTLOOK 365

Powered by  INTIME TEC

## 1. Description

Connect to Outlook 365 is a dedicated HP Workpath app that allows you to simplify your workflow. Using the HP MFP interface, you can easily scan files and send them using Outlook. Setup is easy, as the app integrates with the existing authentication and tracking infrastructure.

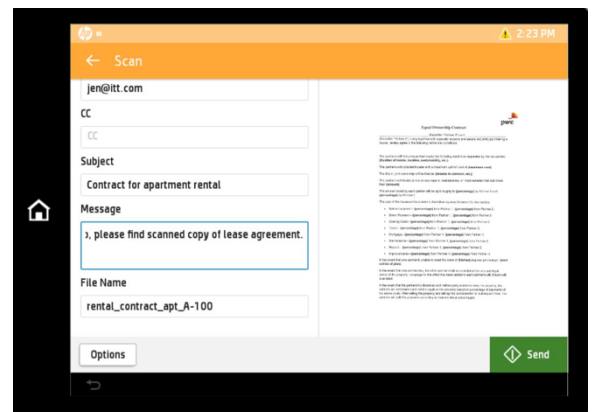

## 2. Key Features

### 2.1 Multi-user role login from an HP MFP

Each user can login using their Outlook 365 credentials. This allows access to any Outlook file attachment from an HP MFP.

### 2.2 Scan and email directly

Users can scan files up to 4 MB, attach the file in Outlook, and send it to stored email addresses.
