

CONNECT TO REMARK TEST GRADING

Powered by

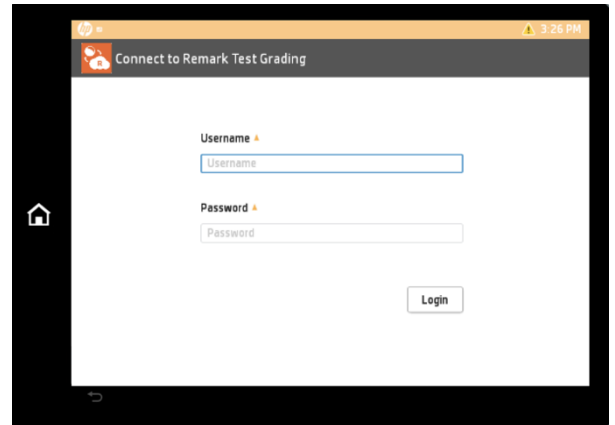

1. Description

Connect to Remark Test Grading is a dedicated HP Workpath app that allows for teachers and/or administrators to more efficiently handle test sheets. Help the teachers accomplish more with easier grading, scanning, printing and emailing.

2. Key Features

2.1 Admin or Teacher Login

With an Admin or Teacher Remark Account, you can access classes, tests, and students, directly from the HP MFP control panel.

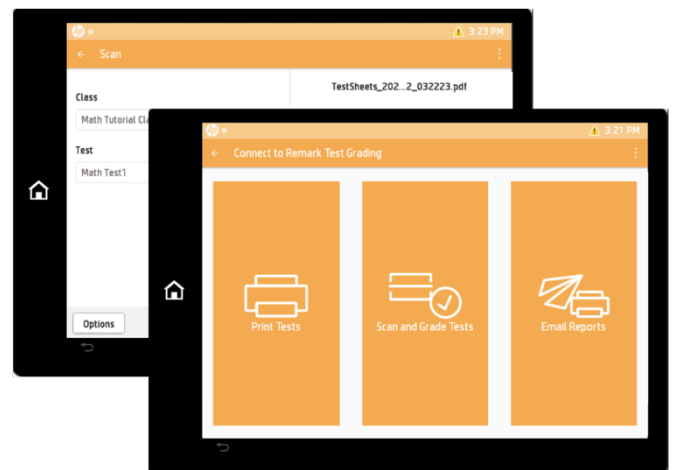

2.2 Print and scan test sheets

Save time by allowing teachers or administrators to quickly distribute the OMR test sheets by directly printing them. Tests can then be graded by collecting the bubbled OMR answer sheets and scanning them in.

2.3 Email grades to students

Eliminate potential grading errors by emailing graded tests directly to students. Stop forcing teachers to handle stacks of student tests unnecessarily.
