## DIFFERENTIATORS

We garner our partners' trust and confidence that we will support them and deliver the highest quality services through the following differentiators:

### Delivery

Commitment to on-time, on-budget, with quality or we don't charge. Agile development methodologies providing project transparency and clear prioritization. Scrum-certified product owners and project managers.

### Relationships

Customer-driven development model focused on solving customer challenges in a way that has a powerful impact on the end-user experience. Open and candid communication to minimize breakdowns and accelerate breakthroughs.

### Values

Commitment to delivering business value as defined by our clients. Commitment that our clients experience our core values of Trust, Transparency, Integrity, and Leadership.

**WE PROMISE**

ROI or you don't pay

## CREATING ABUNDANCE THROUGH DEVOPS

DevOps combines development and operations to provide continuous, high-quality development throughout the life cycle of the project.

With our onshore/offshore blended model, we can work with your business to offer 24/7 support and ensure releases and launches are seamless.

CONTINUOUS  
HIGH-QUALITY  
development

### SAVING E-COMMERCE CLIENT MONEY

#### The Challenges

Our client has an eCommerce site that runs all of their retail business. Before partnering with In Time Tec, the client was using another vendor; that vendor had full control, meaning if they ever disappeared, all the knowledge and access to the client's website infrastructure would disappear as well.

#### The Solution

With onshore and offshore resources, In Time Tec was able to learn the old system alongside the client's DevOps team, ensuring that if our engagement ended, they would have people on their team who would have the necessary information and knowledge.

#### The Results

*Saves members and client time:* No downtime during busy 2020 holiday season.

*Increased work efficiency:* Moved cloud providers for cost savings and improved features

---

### MULTIPLE IDENTICAL ENVIRONMENTS

#### How we helped

In Time Tec worked with a digital marketing company to create multiple, identical environments rapidly. We ensured the environments created were consistent in order to assist the development workflow. We automated the creation of test/dev/staging/production environments using Azure Resource Manager templates, and we automated machine configuration with Powershell DSC. This implementation helped reduce costs and delivery times. Our team made sure the defect cycle time was reduced, with an increased ability to reproduce and fix defects.
