UPDATING YOUR LEGACY SOFTWARE SYSTEM HELPS YOUR COMPANY MEET CUSTOMER EXPERIENCE EXPECTATIONS BY ADDING FUNCTIONALITY AND FLEXIBILITY.

LEGACY SOFTWARE SYSTEM MODERNIZATION OPTIMIZES BUSINESS SYSTEMS TO IMPROVE EFFICIENCY, ADDRESS TECHNOLOGY CONSTRAINTS, AND IMPROVE INTEGRATION WITH OTHER SYSTEMS BASED ON NEWER TECHNOLOGY PLATFORMS.

CASE STUDY: *PUBLIC SECTOR UPGRADE*

THE CHALLENGES

Our client, a department for the State of Idaho, had multiple business processes that relied on paper. Everything was manual-entry base, tedious and time-consuming.

THE SOLUTION

In Time Tec looked at the current processes and tech being used, gained deep understanding, and determined how we could help them modernize their systems. We built and maintain a web portal that was built to support all the old processes in a quicker, more maintained efficient way.

THE RESULTS :

FILLED IN THE GAPS:
Helped the teams gain a deeper understanding of data
ELIMINATED WASTE:
Improved third-party data import workflows

CASE STUDY: *FROM PAPER TO TECH*

THE CHALLENGES

Our client relied on paper-based systems to complete coaching, training, licensing, and record keeping for child care providers. This resulted in a slow turn-around time—ranging from weeks to months—for child care providers to get licensed.

THE SOLUTION

In Time Tec created a web-based approach that was easier to access, easier to use, more intuitive, and more reliable. It consolidates the data in one place for robust, dynamic reporting that is consistent for every process. It also gives customers access and control of their own data.

THE RESULTS : FREE UP TIME AND FREEDOM TO DO THE JOB

Minimized turn-around time for child care provider licensing and incentives.
Gave providers control of doing what they need to do administratively so coaches can focus on quality instead of processes.

In Time Tec is a platform for creating abundance... we just happen to build software.
