

WE VALUE:

Trust, Transparency,
Integrity, and Leadership

CREATING ABUNDANCE:

We just happen to build
software

WE PROMISE:

Immediate ROI or you
don't pay

Locations: Sacramento • Boise • Portland • Lehi • Jaipur • Bangalore

COMPANY OVERVIEW:

In Time Tec provides onshore/offshore software development services so that our partners can focus on their strengths and keep their teams focused on the execution and innovation that will propel them forward. We provide breadth and depth in technical resources through our knowledge base and flexible workforce. This expertise is coupled with a commitment to harnessing our culture of execution by delivering immediate ROI to our clients via affordable, long-term software services.

DIFFERENTIATORS:

We garner our partners' trust and confidence that we will support them and deliver the highest quality services through the following:

DELIVERY

Focus on delivering value.
Commitment to our word and
delivering on those promises.

RELATIONSHIPS

Open and candid communication
and dedication to vested
partnerships.

VALUES

Commitment to something
bigger than ourselves. Our core
values drive everything we do:
trust, transparency, integrity,
and leadership.

QUALITY

Focused on delivering quality
and value.

MOBILE APPS ARE RUNNING THE BUSINESS WORLD. HAVING ONE CAN ALLOW YOU TO STREAMLINE BEHIND-THE-SCENES OPERATIONS, INCREASE ENGAGEMENT AND PRODUCTIVITY WITH YOUR CUSTOMERS.

BY OUTSOURCING SOFTWARE DEVELOPMENT, YOU CAN FOCUS ON YOUR CORE BUSINESS. WE HAVE ONSHORE AND OFFSHORE RESOURCES THAT CAN HELP YOU DEVELOP, MAINTAIN, OR IMPROVE ANY MOBILE APPLICATION YOU HAVE OR WANT TO HAVE.

WEATHER ALERT APPLICATION

HOW WE HELPED

In Time Tec developed an application for receiving emergency alerts from the public safety agencies concerning severe weather and community safety warnings.

This free application allows users to add their location and set preferences to receive alerts concerning that location. It also has a feature to track the user's location to enable an emergency rescue notification, should it be needed. Additionally, it allows users to view maps of areas of impact with the ability for the user to tap and check each notification.

STREAMLINE

BEHIND THE SCENES OPERATIONS

CASE STUDY: SAVING ECOMMERCE CLIENT MONEY

THE CHALLENGES

Our client, a non-profit association that administers learning certificates and courses, had a manual honor-based system for tracking continuing education courses. Members would attend an event to get credits, get a piece of paper that would show the credits, and then manually enter credits in the non-profit's existing system. Many people were forgetting to log or logging incorrect data and there was too much room for inaccuracies.

THE SOLUTION

In Time Tec built a mobile application that brought the whole system online. The app allows members to register, check in, and track events they attend for continuing education credits. Instead of remembering to manually track credits, members now just scan a QR code when they arrive at an event and their attendance is tracked for credit.

THE RESULTS :

SAVES MEMBERS AND CLIENT TIME:

More accuracy of continuing education credit tracking with less room for human error. Easier and more efficient tracking.

In Time Tec is a platform for creating abundance... we just happen to build software.
