DIFFERENTIATORS

We garner our partners' trust and confidence that we will support them and deliver the highest quality services through the following differentiators:

Delivery

Commitment to on-time, on-budget, with quality or we don't charge. Agile development methodologies providing project transparency and clear prioritization. Scrum-certified product owners and project managers.

Relationships

Customer-driven development model focused on solving customer challenges in a way that has a powerful impact on the end-user experience. Open and candid communication to minimize breakdowns and accelerate breakthroughs.

Values

Commitment to delivering business value as defined by our clients. Commitment that our clients experience our core values of Trust, Transparency, Integrity, and Leadership.

WE PROMISE

ROI or you don't pay

IN TIME TEC IS A PLATFORM FOR CREATING ABUNDANCE... WE JUST HAPPEN TO BUILD SOFTWARE

www.linkedin.com/company/in-time-tec/mycompany/

CREATING ABUNDANCE THROUGH QUALITY ASSURANCE

Monitoring your development and projects is key to successful business operations. Using the latest procedures, techniques, and tools, we can ensure that your project, website, or service is working as well as possible.

Our team is up-to-date on the latest defined standards and can help ensure your projects comply, leaving you with one less thing to think about.

Key to
SUCCESSFUL
business operations

INTENSIVE RUN-THROUGH

The Challenges

Our client, an insurance company, had existing internal applications for employees. However, they had no quality assurance in their development and deployment process so the features were often breaking. The end-users were doing cursory quality checks but they were not experts nor did they know how to do detailed checks of every aspect of the application.

The Solution

In Time Tec came alongside the client and added onshore and offshore QA engineers to their existing teams. When the client's developers had finished coding, our engineers did an intense and thorough run-through of the application to ensure the expected results were produced. The In Time Tec team also worked to try to break the application to reveal any vulnerabilities.

The Results

Free up time: The end-users no longer have to do quality assurance checks.

Quality improvement: With more in-depth QA, quality of all applications has improved.

WHAT OUR CLIENTS SAY

"In Time Tec's global development model is truly best-in-class providing intuitive user interfaces, big data performance, web and mobile solutions, and dedicated support. Bottom line—**our partnership with In Time Tec makes us successful together.**"

Department Manager
Printing Industry

"In Time Tec has become part of our team; they are co-creators in this project. We have little technical background. They are responsive in their communication, productive in their work and brilliant problem solvers."

Jane Zink
IdahoSTARS

"I would encourage others to partner with In Time Tec because my experience has been that **they are reliable, super easy to work with, and cost effective**"
