DIFFERENTIATORS

We garner our partners' trust and confidence that we will support them and deliver the highest quality services through the following differentiators:

Delivery

Commitment to on-time, on-budget, with quality or we don't charge. Agile development methodologies providing project transparency and clear prioritization. Scrum-certified product owners and project managers.

Relationships

Customer-driven development model focused on solving customer challenges in a way that has a powerful impact on the end-user experience. Open and candid communication to minimize breakdowns and accelerate breakthroughs.

Values

Commitment to delivering business value as defined by our clients. Commitment that our clients experience our core values of Trust, Transparency, Integrity, and Leadership.

WE PROMISE

ROI or you don't pay

IN TIME TEC IS A PLATFORM FOR CREATING ABUNDANCE... WE JUST HAPPEN TO BUILD SOFTWARE

 www.linkedin.com/company/in-time-tec/mycompany/

CREATING ABUNDANCE THROUGH UI/UX

The UI/UX design is the difference between a successful launch and a failed attempt. Whether working on an internal or a public facing application, we can work with you to improve your user experience.

Our team of expert designers work with you to ensure that the user experience is smooth and successful, whether you need someone from start to finish, or to jump in the middle on an already established project, we are dedicated to taking your application to the next level.

CLIENT PORTAL

The Challenges

Our client, an information technology company, had begun offering devices as a service, or DaaS. They needed a portal for clients to manage the contracts, renewals, and requests for new equipment. Initially, the technologists designed the tool from the client requests, which often meant that no one talked about user-interface (UI) design. This led to miscommunications about the look and feel of the portal and work was often redone.

The Solution

In Time Tec brought a UI designer onto the client's team. This person was responsible for mocking up the design of the tool before the developers even began to code. They worked directly with both the client and the developers to ensure everyone was on the same page for the vision of the portal.

The Results

On brand: The new portal was on brand with the client's other tools and marketing.

More time efficiency: Saved both the client and developers time by introducing a designer to mock up features before they were coded, instead of the client wanting changes after.

Created clarity: All people involved knew exactly what to expect with the look and feel of the portal.

EXPERIENCE

WHAT OUR CLIENTS SAY

"In Time Tec's global development model is truly best-in-class providing intuitive user interfaces, big data performance, web and mobile solutions, and dedicated support. Bottom line—**our partnership with In Time Tec makes us successful together.**"

Department Manager
Printing Industry

"In Time Tec has become part of our team; they are co-creators in this project. We have little technical background. They are responsive in their communication, productive in their work and brilliant problem solvers."

Jane Zink
IdahoSTARS

"I would encourage others to partner with In Time Tec because my experience has been that **they are reliable, super easy to work with, and cost effective**"
