VINYL Y JAMB SEAL

Made from high quality clear PVC. This is used to provide a semi-rigid stop between the door and the side lite.

V11-0085

V11-0080

V11-0025

SINGLE PIECE BOTTOM SWEEP

Made from high quality clear PVC. This sweep forms a seal between the bottom of the door and the tile below. It keeps the water in the shower where it belongs.

CLEAR VINYL DOUBLE FIN SEAL

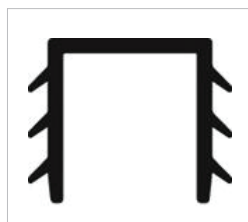

Made from High quality clear PVC. This sweep forms a seal between the bottom of the door and the tile below. It keeps the water in the shower where it belongs.

V11-0060

FLEXIBLE VINYL INSERT

Made from clear flexible PVC. This is used to hold the glass panel in an extruded aluminum channel or header.

V11-0030

WIPES & SEALS

MULTI-PURPOSE L-JAMB

Made from high quality clear PVC. This angle is used in a variety of applications. It can form a strike against a wall or another panel of glass. It can also be used as a seal for side lites and doors.

V11-0040

90° VINYL FIN SEALS

Made from high quality clear PVC. This is used to provide a seal between a return panel and door or between sliding panels.

V11-0072

V11-0074

135° VINYL FIN SEAL

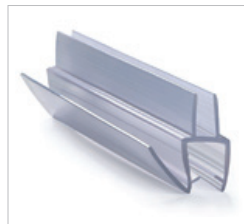

Made from high quality clear PVC. This seal is used to direct water draining down the door to the inside of the shower curb.

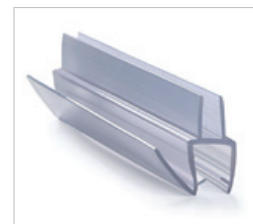

V11-0078

COMBINATION WIPE WITH DRIP RAIL

Made from co-extruded clear PVC, this combines the function of both a drip rail and a bottom seal. It seals the bottom of the door against the tile, while directing the water on the inside of the curb.

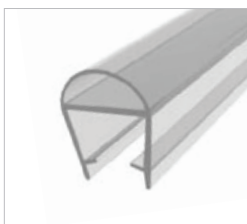

V11-0020

V11-0021

VINYL BULB SEAL

Made from high quality clear PVC. This item can be used to seal a variety of doors and panels against the wall or side lite.

V11-0050

SILICONE BULB SEAL FOR 3/16" GAP

Made from clear silicone. This seal is used for a variety of applications where a gap of 3/16" or less must be filled.
