

TRANQUILITY

SHOWER DOOR SYSTEM

GLIDING SHOWER DOOR DESIGN.

A contemporary and elegant take on a semi frameless shower kit. Built with quality, specially designed to never warp or wear down, this system comes with pre-fabricated threaded holes for easy installation. Kits offered for 3/8" glass thickness with all hardware mounting through glass (no clamping or gluing components), with optional 1/2" glass components sold separately. Available with one of the thickest stainless steel tube walls in the industry, the longer bar is suitable for customizing all various size shower openings.
