

RETURN SAFELY

Simple online attendance tracking, communications, and secure reporting to keep our communities safe from COVID-19 as we return to events

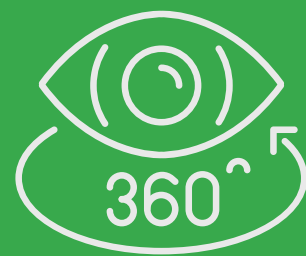

1. Real time incident response

Provide your volunteers with the ability to communicate geo-located issues in real-time; so your Emergency Management Team can locate the incident quickly, and dispatch appropriate resources.

2. Real-time Command Centre

Provide your management team with a single source of truth, and a 360 degree view of all event issues, incidents and activities.

3. Operational Delivery

Provide your entire workforce with the latest operational information, including the schedule, sponsor relations, emergency management information and any event changes.

1. Reliable Attendance Tracking

Track attendance records through a simple check in and out platform for your players, volunteers, coaches, parents and administrators in real time.

2. Secure Reporting Platform

Easily record attendance, search by date and communicate directly with players, coaches, administrators, parents and officials.

3. Simple Data Recording

Import your club data and create custom registration forms and questions, Rosterfy can be used to capture the data that you need to ensure that your club operates in accordance with government guidelines.
