MSDS FOR RECHARGEABLE LITHIUM-ION BATTERIES

Material/Product Safety Data Sheet (MSDS-PSDS)

MP/VL products	Rechargeable lithium-ion single cells and multi-cell battery packs	Simplified Advice Code
Revision 3 Date 06/2005		G

1. Identification of the Substance or Preparation and Company			
Product	Rechargeable lithium-ion		
		I and medium prismatic	
	single cells a	and multi-cell battery packs	
Production sites	Saft America Inc.	Saft	
	313 Crescent Street	Rue Georges Leclanché	
	Valdese BP 1039		
	North Carolina 28690 86060 Poitiers cedex 9		
	USA	FRANCE	
	Tel. No. +1 (828) 874 4111	+33 (0)5 49 55 48 48	
	Fax No. +1 (828) 874 2431	+33 (0)5 49 55 48 50	
Emergency contacts	+1 (703) 527 3887	(CHEMTREC US Service Center)	
Within the USA	+1 (800) 424 9300		

2. Composition & Information on Ingredients

Each cell consists of an hermetically sealed metallic container containing a number of chemicals and materials of construction of which the following could potentially be hazardous upon release.

Ingredient	Content	CAS No.	CHIP C	Classification
Lithium metal	0 (in spite of their name, these batteries do not contain any lithium metal)			
LiCoO ₂ (Lithium cobaltite)	≈ 30%	12190-79-3		R22, R43 S2, S22, S24, S26, S36, S37, S45
Organic solvents	≈ 13% EA (Ethyl Acetate) EC (Ethyl Carbonate) DMC (DiMethyl Carbonate) (Boiling Points: EA: -84°C; EC: +38°C DMC: +4°C)	141-78-6 96-49-1 616-38-6	×	R21, R22, R41, R42, R43 S2, S24, S26, S36, S37, S45
LiPF ₆ (Lithium hexafluoro phosphate)	≈ 1%		×i	R14, R21, R22, R4, R43 S2, S8, S22, S24, S26, S36, S37, S45
Carbon (C _n)	≈ 16%	1333-86-4		NONE KNOWN
	Amount varies dependin	g on cell size	 	

3. Hazards Identification

Do not short circuit, puncture, incinerate, crush, immerse, force discharge or expose to temperatures above the declared operating temperature range of the product. Risk of fire or explosion. The rechargeable lithium-ion batteries described in this Product Safety Data Sheet are sealed units which are not hazardous when used according to the recommendations of the manufacturer.

Under normal conditions of use, the electrode materials and liquid electrolyte they contain are not exposed to the outside, provided the battery integrity is maintained and seals remain intact. Risk of exposure only in case of abuse (mechanical, thermal, electrical) which leads to the activation of safety valves and/or the rupture of the battery container. Electrolyte leakage, electrode materials reaction with moisture/water or battery vent/explosion/fire may follow, depending upon the circumstances.

4. First Aid Measures	
Inhalation Remove from exposure, rest and keep warm. In severe cases obtain me attention.	
Skin contact	Wash off skin thoroughly with water. Remove contaminated clothing and wash before reuse. In severe cases obtain medical attention.
Eye contact	Irrigate thoroughly with water for at least 15 minutes. Obtain medical attention.
Ingestion	Wash out mouth thoroughly with water and give plenty of water to drink. Obtain medical attention.
Further treatment	All cases of eye contamination, persistent skin irritation and casualties who have swallowed this substance or been affected by breathing its vapours should be seen by a Doctor.

5. Fire Fighting Measures

CO₂ extinguishers, halon or copious quantities of water or water-based foam can be used to cool down burning Li- ion cells and batteries.

Do not use for this purpose sand, dry powder or soda ash, graphite powder or fire blankets.

Extinguishing media Use water or CO₂ on burning Li-ion cells or batteries

6. Accidental Release Measures

Remove personnel from area until fumes dissipate. If the skin has come into contact with the electrolyte, it should be washed thoroughly with water.

Sand or earth should be used to absorb any exuded material. Seal leaking battery and contaminated absorbent material in plastic bag and dispose of as Special Waste in accordance with local regulations.

7. Handling and Storage	7. Handling and Storage		
Handling Do not crush, pierce, short (+) and (-) battery terminals with conductive (i.e. metal) goods. Do not directly heat or solder. Do not throw into fire. Do not mix batteries of different types and brands. Do not mix new and use Keep batteries in non conductive (i.e. plastic) trays.			
Storage	Store in a cool (preferably below 30°C) and ventilated area, away from moisture, sources of heat, open flames, food and drink. Keep adequate clearance between walls and batteries. Temperature above 70°C may result in battery leakage and rupture. Since short circuit can cause burn, leakage and rupture hazard, keep batteries in original packaging until use and do not jumble them.		
Other	Follow Manufacturers recommendations regarding maximum recommended currents and operating temperature range. Applying pressure on deforming the battery may lead to disassembly followed by eye, skin and throat irritation.		

8. Exposure Controls & Personal Protection			
		$LiCoO_2$ 0.1 mg/m 3 max. (OSHA) EC, EA, DMC N/A	
	Respiratory protection	In all fire situations, use self-contained breathing apparatus.	
	Hand protection	In the event of leakage wear gloves.	
	Eye protection	Safety glasses are recommended during handling.	
	Other	In the event of leakage, wear chemical apron.	

9. Physical and Chemical Properties		
Appearance	Cylindrical or prismatic shape	
Odour		
рН	Not Applicable	
Flash point	Not applicable unless individual components exposed	
Flammability	Not applicable unless individual components exposed	
Relative density	Not applicable unless individual components exposed	
Solubility (water)	Not applicable unless individual components exposed	
Solubility (other)	Not applicable unless individual components exposed	

10. Stability and Reactivity		
Product is stable under con	ditions described in Section 7.	
Conditions to avoid.	Heat above 70°C or incinerate. Deform. Mutilate. Crush. Pierce. Disassemble Short circuit. Expose over a long period to humid conditions.	
Materials to avoid		
Hazardous decomposition Products	CO, CO ₂	

11. Toxicological Informati	on
Signs & symptoms	None, unless battery ruptures. In the event of exposure to internal contents, corrosive fumes will be very irritating to skin, eyes and mucous membranes. Overexposure can cause symptoms of non-fibrotic lung injury and membrane irritation.
Inhalation	Lung irritant.
Skin contact	Skin irritant
Eye contact	Eye irritant.
Ingestion	Tissue damage to throat and gastro-respiratory tract if swallowed.
Medical conditions generally aggravated by exposure	In the event of exposure to internal contents, eczema, skin allergies, lung injuries, asthma and other respiratory disorders may occur.

12. Ecological Information		
Mammalian effects	None known if used/disposed of correctly.	
Eco-toxicity	None known if used/disposed of correctly.	
Bioaccumulation potential	None known if used/disposed of correctly.	
Environmental fate	None known if used/disposed of correctly.	

13. Disposal Considerations

Do not incinerate, or subject cells to temperatures in excess of 70° C. Such abuse can result in loss of seal, leakage, and/or cell explosion. Dispose of in accordance with appropriate local regulations.

14. Transport Information	
Label for conveyance Label for conveyance Label for conveyance For the single cell batteries and multicell battery packs that are non-restricted to truse lithium-ion batteries inside label. For the single cell batteries and multicell battery packs which are restricted to transport (assigned to the Miscellaneous Class 9), use Class 9 Miscellaneous Dangerous CUN Identification Number labels. In all cases, refer to the product transport certificate issued by the Manufacturer.	
UN number	UN 3090
Shipping name	Lithium Batteries
Hazard classification	Depending on their equivalent lithium metal content, some single cells and small multicell battery packs may be non- assigned to Class 9 (Refer to Transport Certificate)
Packing group	
IMDG Code	9033
CAS	
EmS No.	4.1-06
Marine pollutant	No
ADR Class	Class 9

15. Regulatory Information				
	LiCoO R22		Harmful if swallowed.	
	LICOO ₂	R43	May cause sensitization by skin contact.	
		R21	Risk of damage to the skin	
Risk phrases	EA/EC/DMC	R22	Harmful if swallowed.	
	Organic solvents	R41	Risk of serious damage to eye.	
	mix	R42	May cause sensitization by inhalation.	
	IIIIX	R43	May cause sensitization by skin contact.	
		R14	Reacts with water	
		R21	Harmful in contact with skin	
	LiPF ₆	R22	Harmful if swallowed.	
		R41	Risk of serious damage to eye	
		R43	May cause sensitization by skin contact.	
		S2	Keep out of reach of children	
		S22	Do not breathe dust	
		S24	Avoid contact with skin.	
	S S	S26	In case of contact with eyes, rinse immediately with	
		000	plenty of water.	
		S36	Wear suitable protective clothing.	
		S37	Wear suitable gloves.	
		S45 S2	In case of incident, seek medical attention.	
		S2 S24	Keep out of reach of children. Avoid contact with skin.	
	EA/EC/DMC	S24 S26	In case of contact with eyes, rinse immediately with	
Safety phrases	Organic	320	plenty of water.	
Salety piliases	solvents	S36	Wear suitable protective clothing.	
	mix	S37	Wear suitable gloves.	
		S45	In case of incident, seek medical attention.	
		S2	Keep out of reach of children.	
		S8	Keep away from moisture	
		S22	Do not breathe dust	
		S24	Avoid contact with skin	
	LiPF ₆	S26	In case of contact with eyes, rinse immediately with	
	0		plenty of water.	
		S36	Wear suitable protective clothing.	
		S37	Wear suitable gloves.	
		S45	In case of incident, seek medical attention.	
UK regulatory references				

16. Other information

This information has been compiled from sources considered to be dependable and is, to the best of our knowledge and belief, accurate and reliable as of the date compiled. However, no representation, warranty (either expressed or implied) or guarantee is made to the accuracy, reliability or completeness of the information contained herein.

This information relates to the specific materials designated and may not be valid for such material used in combination with any other materials or in any process. It is the user's responsibility to satisfy himself as to the suitability and completeness of this information for his particular use.

Saft does not accept liability for any loss or damage that may occur, whether direct, indirect, incidental or consequential, from the use of this information. Saft does not offer warranty against patent infringement.
