A Commitment to High Margins

Underlying margins are further improving due to product mix, technology transition and currency benefit.
Revenue Split by Business Unit

100%

- NZ business forecast to grow
- Lincoln UK closure now complete
- France Space & Defence is steady

*Based on forecast revenues
At the centre of our markets, from New Zealand
A true testament to the quality of your products, is the company you keep. At Rakon, we are proud to work with some of the top companies in the world.

- Cisco CEO: Rakon stepped up and delivered
- Designing Rakon products into the latest equipment
- Roll out with Samsung Networks into India
- Thales Satellites rely on Rakon for communication
- Precision farming with Rakon patented technology
- 20 years with Garmin positioning products
New products capturing market share through technology transition

We have positioned our new product offering to take advantage of high margin opportunities servicing future technologies.
FY2016 Outlook

- NZD:USD hedging in place
- Revenue dip in legacy products
- Continued focus on high margin products
- **Increase in 1H FY2016** profit expected vs 1H FY2015
  - Both Underlying EBITDA and NPAT
- FY2016 profit levels to **remain similar** to last year
  - Both Underlying EBITDA and NPAT
Our Markets – Revenue Split

- Telecommunications Infrastructure made up 54% of revenue for FY2015
- Continue to reduce presence in Mobile Phone market
- Space and Defence remains constant

Very Early Days for LTE/4G

Mobile subscriptions by technology (billion)

- 5G
- LTE/WCDMA/GSM and LTE/CDMA
- WCDMA/GSM
- GSM/EDGE-only
- TD-SCDMA/GSM
- CDMA-only
- Other

3.7 billion LTE subscriptions by the end of 2020
Global Positioning Highlights

- Emergency Beacon market forecast to **grow 15%** in volume
- Higher margins coming from **GNSS**
- Machine to Machine market to **triple** by 2018\(^1\)
- Demand for **precision** increases – a key strength of Rakon

\(^1\) Source: Infonetics

23% Revenue
Guiding Self-driving Tractors

- Rakon’s patented technology application enables GPS to work in harsh and rugged environments
- Greater position accuracy aligns with Rakon’s product strength in agriculture and asset tracking
Space & Defence Highlights

- 10% of an estimated 200M+ TAM
- Strong relationship with Euro customer base
- Expansion and focus on US, India and Asian markets
- Three major new product platforms being introduced this year
- Defence spending is prioritising technology

18% Revenue
The **Internet of Things** will be a huge opportunity – the increase in **data traffic** from the predicted 50 billion connected devices will result in considerable **demand** for Rakon’s products. We are also anticipating growth as the ‘Other 3 billion’ currently not on the internet **get connected**.
More than global

Our products span land, sea, air and space

Meeting Closed
Disclosure of Non-GAAP Financial Information

Rakon has used ‘Underlying EBITDA’ as a measure of non-GAAP financial information in this announcement and it is defined as:

“earnings before interest, tax, depreciation, amortisation, impairment, loss on disposal of assets, employee share schemes, non-controlling interests, adjustments for associates and joint ventures share of interest, tax & depreciation, and other non-cash items”

‘Underlying EBITDA’ is a non-GAAP measure, with its presentation not being in accordance with GAAP. The Directors present ‘Underlying EBITDA’ as a useful non-GAAP measure to investors, in order to understand the underlying operating performance of the Group and each operating segment, before the adjustment of specific non-cash charges and before cash impacts relating to the capital structure and tax position. ‘Underlying EBITDA’ is considered by the Directors to be the closest measure of how each operating segment within the Group is performing. Management uses the non-GAAP measure of ‘Underlying EBITDA’ internally, to assess the underlying operating performance of the Group and each operating segment.

For FY2014 and FY2015 the use of ‘Underlying EBITDA’ in this announcement has been extracted from the audited financial statements for those financial years. This document should be read in conjunction with the Rakon Limited Annual Report 2015. A detailed reconciliation of Underlying EBITDA is contained at Note 4 (Segment Information) of the Financial Statements.

The use of ‘Underlying EBITDA’ in this release for FY2016 is based on a forecast and is unaudited.
Disclaimer

This presentation contains not only a review of operations, but also some forward looking statements about Rakon Limited and the environment in which the company operates. Because these statements are forward looking, Rakon Limited's actual results could differ materially.

Although management and directors may indicate and believe that the assumptions underlying the forward looking statements are reasonable, any of the assumptions could prove inaccurate or incorrect and, therefore, there can be no assurance that the results contemplated in the forward looking statements will be realised.

Media releases, management commentary and investor presentations are all available on the company's website and contain additional information about matters which could cause Rakon Limited's performance to differ from any forward looking statements in this presentation. Please read this presentation in the wider context of material previously published by Rakon Limited.
