UNLOCK YOUR ATHLETIC POTENTIAL

## About Us

Project MVP was born to help athlete's reach their potential. We make fitness testing, data analysis, benchmarking, talent identification and athlete development a simple and seamless process for you. We let you know if you need to get fitter, faster, stronger or more powerful and then provide the expertise to help you attain your personal goals whatever they are.

Our battery of tests have been developed by industry leading sport scientists and fitness professionals. Using the very latest in sport science technology we assess the athlete's ability to perform a wide range of disciplines, which provides a clear representation of their athletic potential.

Our experienced coaches guide the athletes through the tests from start to finish, providing a fun and competitive environment that is filled with learning experiences. All tests are supported by current scientific based evidence and have been closely scrutinised for reliability and validity. Furthermore, the strict delivery of the tests at each and every event ensures that these standards are consistently upheld.

## Football

This strength and power program is designed to improve your game speed, allowing you to outspurt and close-down opponents with greater effect than change direction better when in close quarters with the opposition. You'll gain power in your ball striking and be able to jump higher for a header. It is a rounded program mixing upper and lower body exercises suitable for those beginning their training journey.
