

TransForce Group Increases Productivity for Emergency Food Network

EFN By the Numbers

35+ Years
in operation

14.2+ Million
annual meals provided to
clients

70+ Locations
served in Pierce County,
WA

Client Needs

- ☐ **Meet increased demand**
- ☐ **Fill driver seats quickly**
- ☐ **Expand distribution network**

About Our Client

In operation for more than **35 years**, **Emergency Food Network (EFN)** is a non-profit organization committed to providing the Pierce County, Washington community with a consistent, diverse, and nutritious food supply. As the primary distributor for government food programs in the county, EFN services **70+ locations**, providing over **14.2 million** meals annually to their clients.

Business Challenge

Operating a driver fleet **below full operational capacity** made it challenging for EFN to successfully manage deliveries to clients and pick-up donations. Compounding this challenge was the increase in demand for their services, as the number of families facing food insecurities in Pierce County increased due to the COVID-19 pandemic.

To continue meeting the needs of their customers, EFN sought out a partner who prioritized safety, could vet drivers quickly, and help the organization meet its **18+ deliveries per day goal**.

Working with TransForce Group has been phenomenal, and the process for sourcing drivers has been easy. I would recommend TransForce Group to any organization with an immediate driver employment solution need.”

- Roger Cortes

Director of Operations, EFN

Daily Delivery Runs

TransForce Group Solution

TransForce Group worked collaboratively with the EFN team to understand its immediate needs, budget requirements, and business goals. As a result, TransForce Group offered its **specialized staffing services**, allowing EFN rapid access to qualified temporary drivers who could supplement their workforce and allow the organization to meet its objectives.

Customer Results

By adding TransForce Group drivers to their fleet, EFN **successfully reached full operational capacity, which improved by 33%**. Filling the gaps in their fleet contributed to the organization's ability to **achieve its business goal of completing 18+ daily deliveries**. To date, TransForce Group continues to support EFN by supplying temporary drivers on an as-needed basis.
