

## **Job Title: Paid Internship - Digital Content**

We are seeking a highly motivated and creative content intern with strong writing skills who will thrive in a fast-paced environment. This is an excellent part time paid opportunity for an individual with an interest in science, startups, and innovation who wants to work as part of a skilled team to gain valuable experience.

The digital content intern will assist in the execution of content marketing campaigns for our company, with a strong focus on writing. Applicants should be comfortable taking direction from other team members, and should also expect to take the initiative to learn about current and emerging deep technology and trends.

### **A world leading incubator**

Cicada Innovations is a Sydney-based incubator with a twenty-year track record of developing deep tech ventures tackling some of the world's most pressing problems. Working at the forefront of innovation, we support deep ventures and entrepreneurs seeking to create life-changing technology – applying cutting-edge science such as advanced materials, synthetic biology, space, and AI to challenges like the future of human health, food security and the climate crisis.

We offer deep tech ventures a unique environment, specialised labs, bespoke business support, commercialisation training programs, and range of events and activities to connect and inspire our community of deep tech pioneers.

Our mission is to make Australia a leader in innovation, while developing advanced science that will create a more sustainable and prosperous future.

## **What you'll do**

You'll provide assistance to the GM of Community & Communications and Events & Community Manager, creating content to engage our community and wider deep tech ecosystem.

- Help us tell our residents stories, by assisting with;
  - Creating and editing promotional images and videos
  - Expanding the mediums we use to tell stories
- Help us support and share our vision for deep tech innovation, by assisting with;
  - Copywriting for blog posts and newsletters
- Assist the team with marketing of events and programs, including:
  - Writing social media copy
  - Creating digital assets

## **Who you are:**

- A creative and multidimensional human that loves telling stories through photos, videos, and words.
- An organised, go-getter who has boundless creative content ideas.
- A quick thinker and problem solver.
- Curious about science, technology, and innovation.
- A Canva whiz with basic video editing skills.

## **About the internship**

We're looking for someone who can commit to working 16-20 hours a week. This internship will be paid.

Apply to [niamh@cicadainnovations.com](mailto:niamh@cicadainnovations.com) with a resume and 100 words about why this opportunity excites you.
