## **Sterileware® Sample Handling Tools**

SP Bel-Art® Sterileware® brand of sterile sample handling tools has more than doubled with the addition of multiple powder and liquid sampling tools, as well as select double bagged products for use in multi-zone clean rooms.

All Sterileware® Sample Handling Tools Are:

- Made from FDA and EU conforming materials; safe for food, drug and cosmetic use
- Manufactured under clean room conditions
- Gamma irradiated sterile (SAL  $10^{-6}$ )
- Heat sealed in individual polyethylene bags
- Lot stamped for accurate tracing

The following page features a product selection guide to help you quickly identify the ideal sterile sampling tool to meet your needs. Product details are on pages 5-21.

## Sterileware® Pharma Scoops

**NEW**

### For Pharmaceutical, Food, Cosmetic, and Chemical Companies

- Ideal for both production work and laboratory use
- High handle location keeps hand further from sample
- Bright red scoops reduce the chance of scoop being left behind in a sample; can serve as code to avoid cross contamination; can provide contrasting background for light colored samples
