

# Greeting my friends!

Hello!

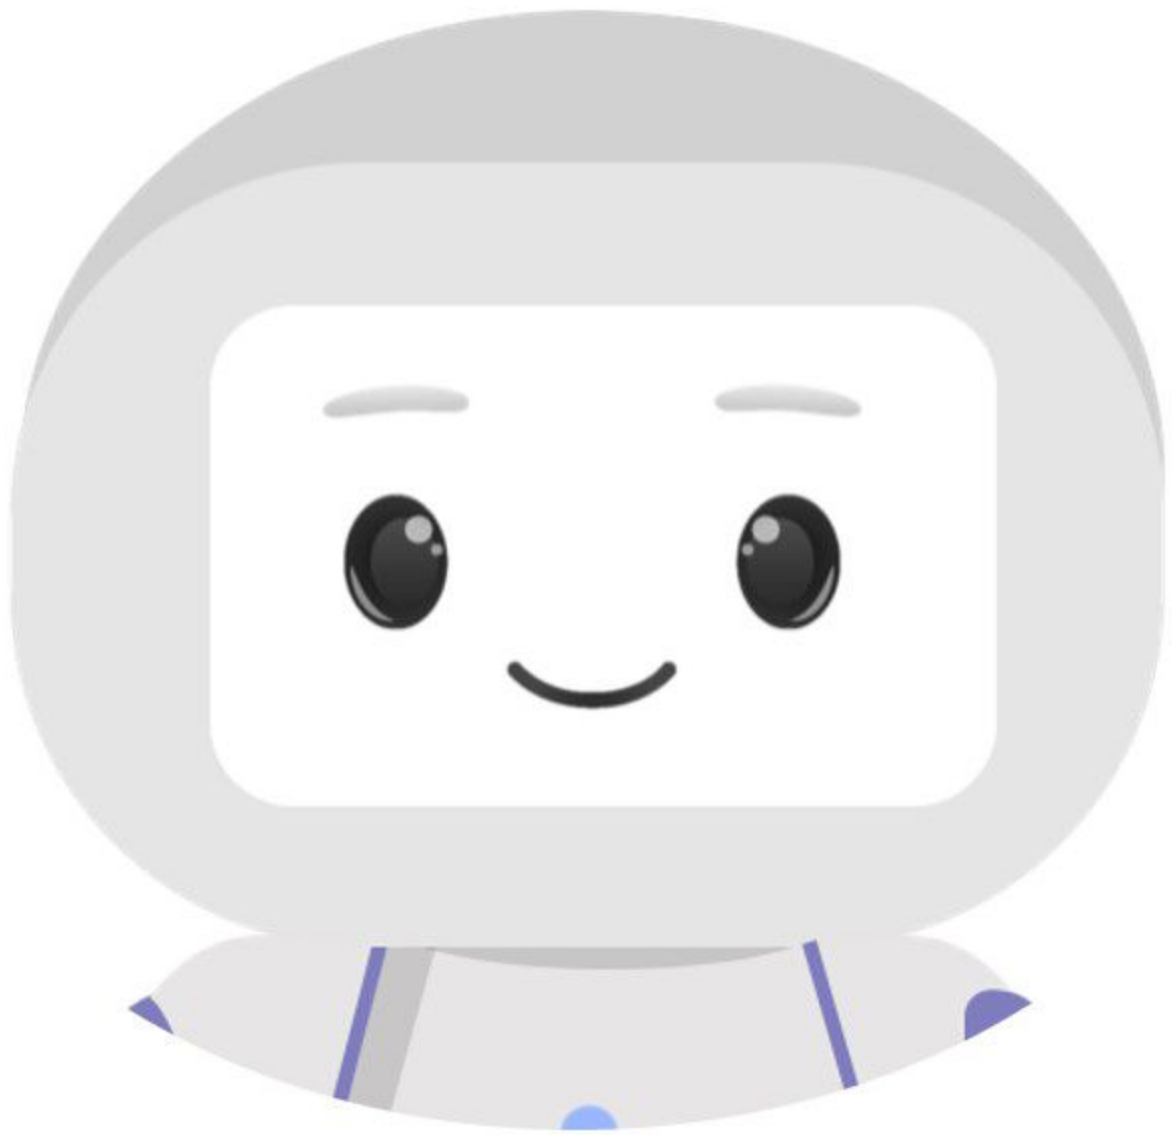

Teaching greeting to learners with autism

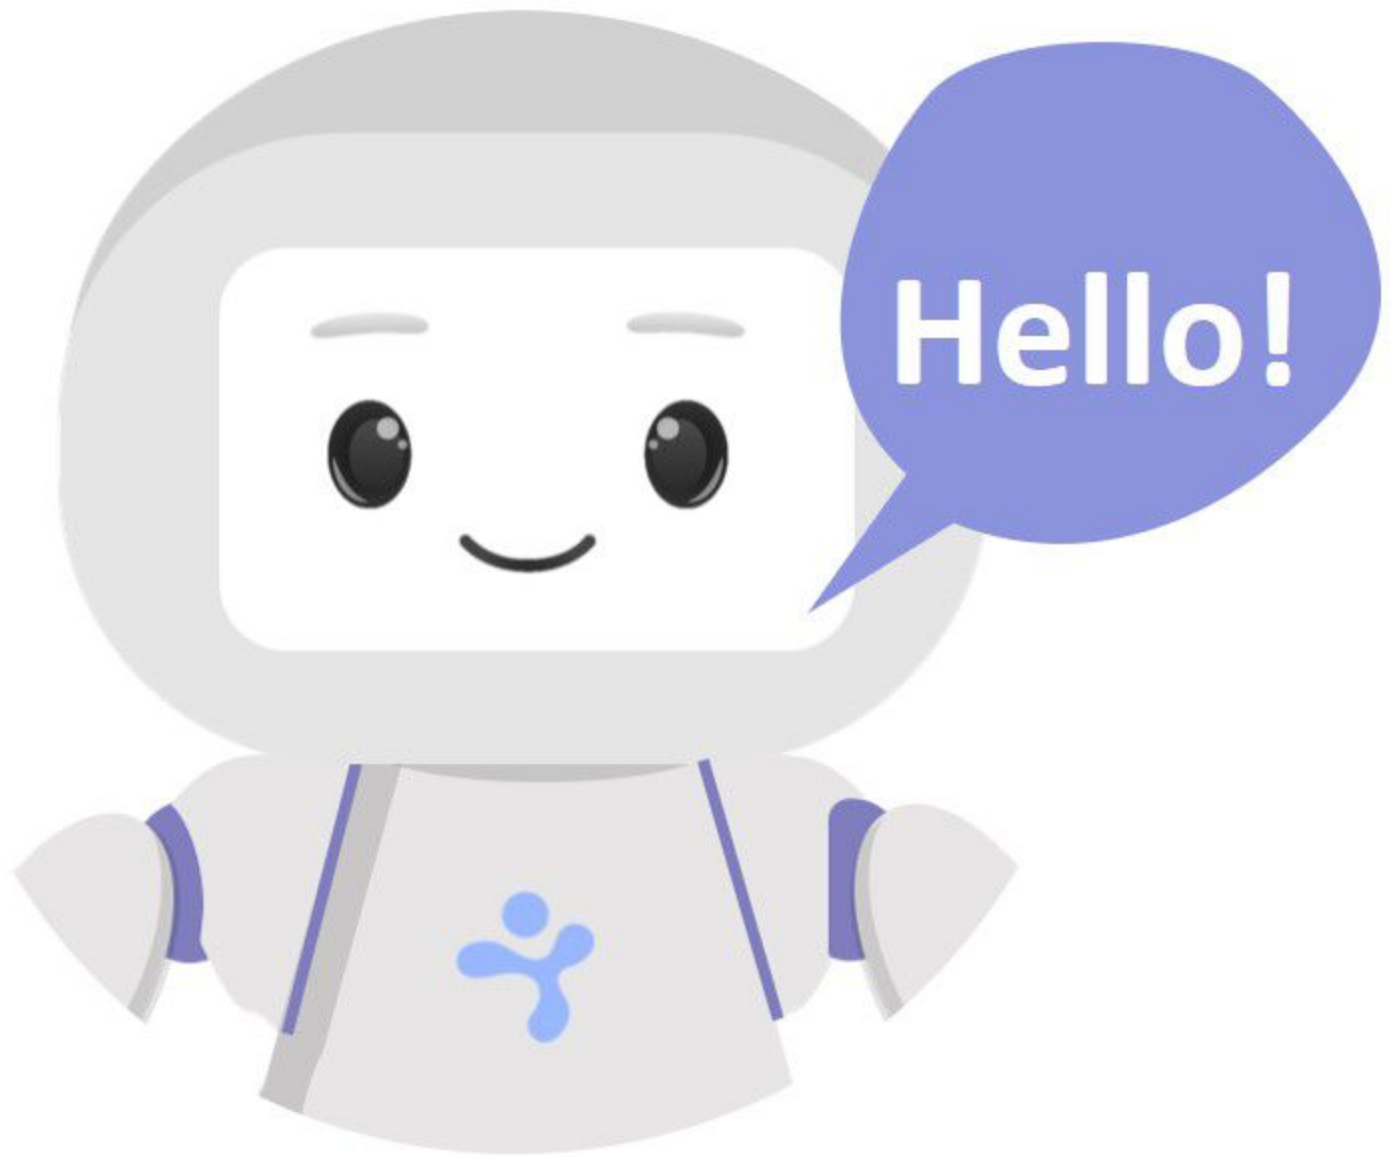

**When I see my friends,  
I can say Hello!**

**I look at their face.**

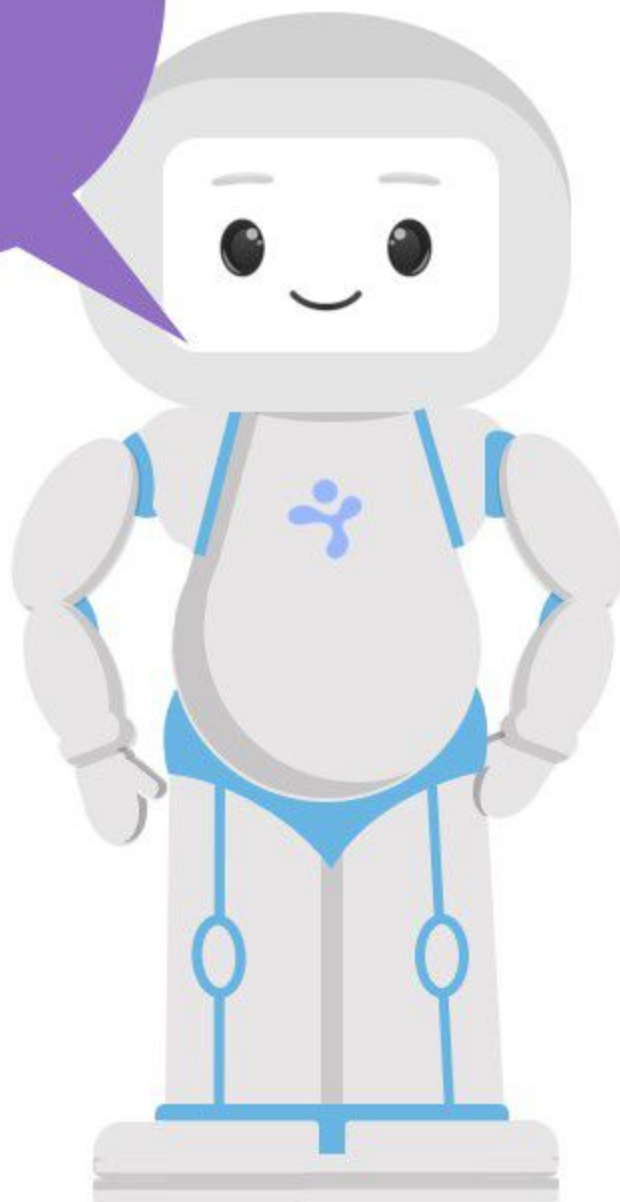

**I smile.**

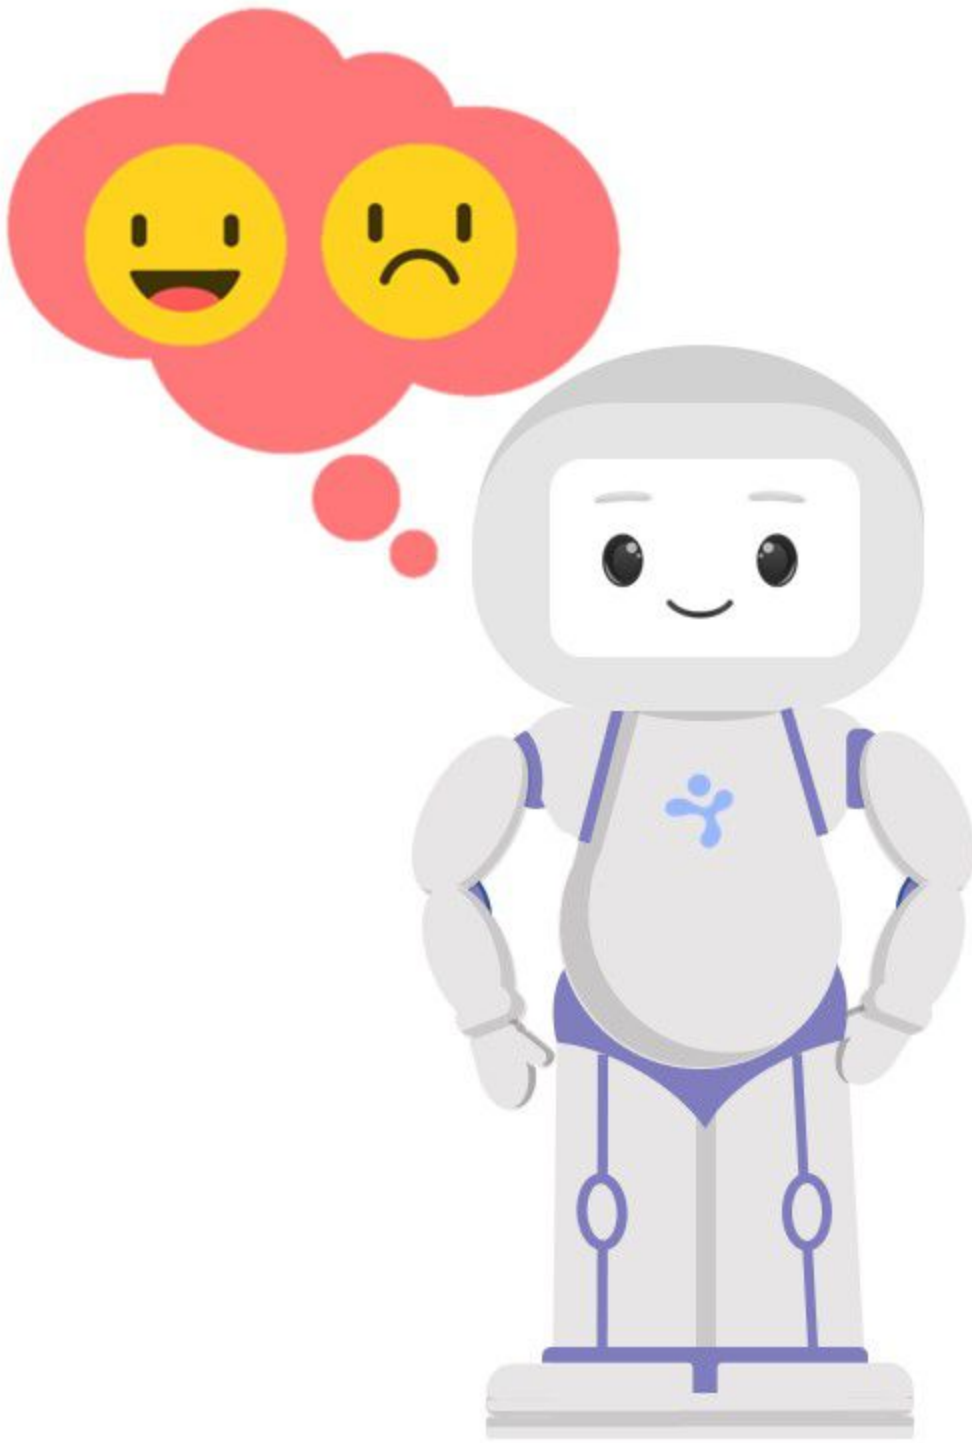

And I say:  
**“Hello!”**

How are you

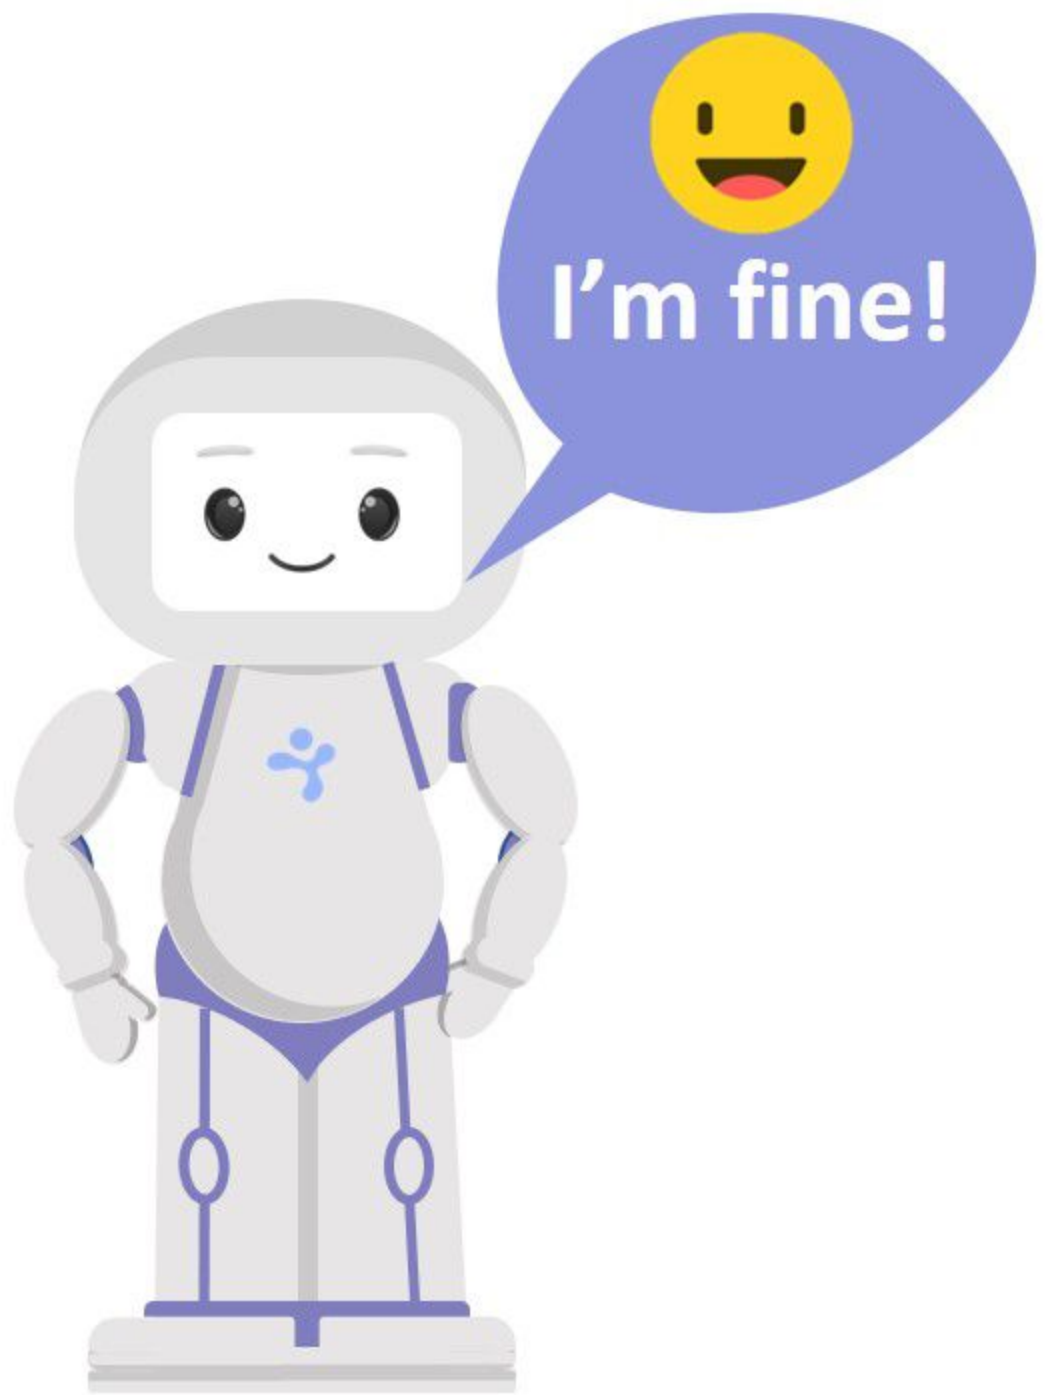

?

My friend can say:  
**How are you?**

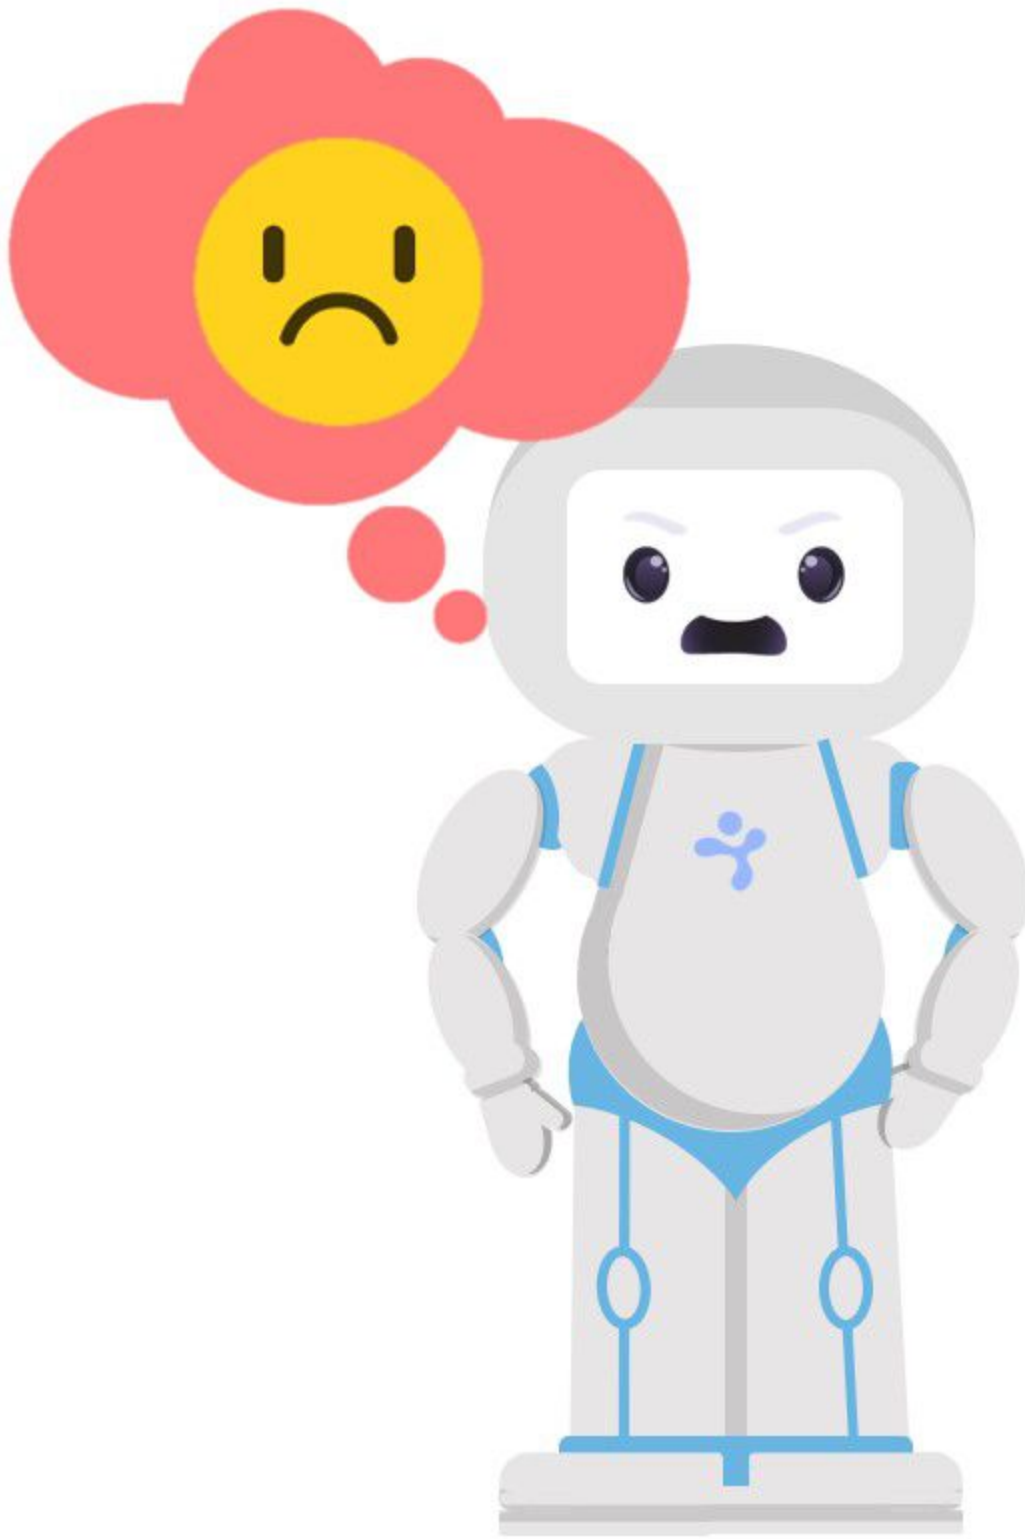

**I can say, how I feel.**

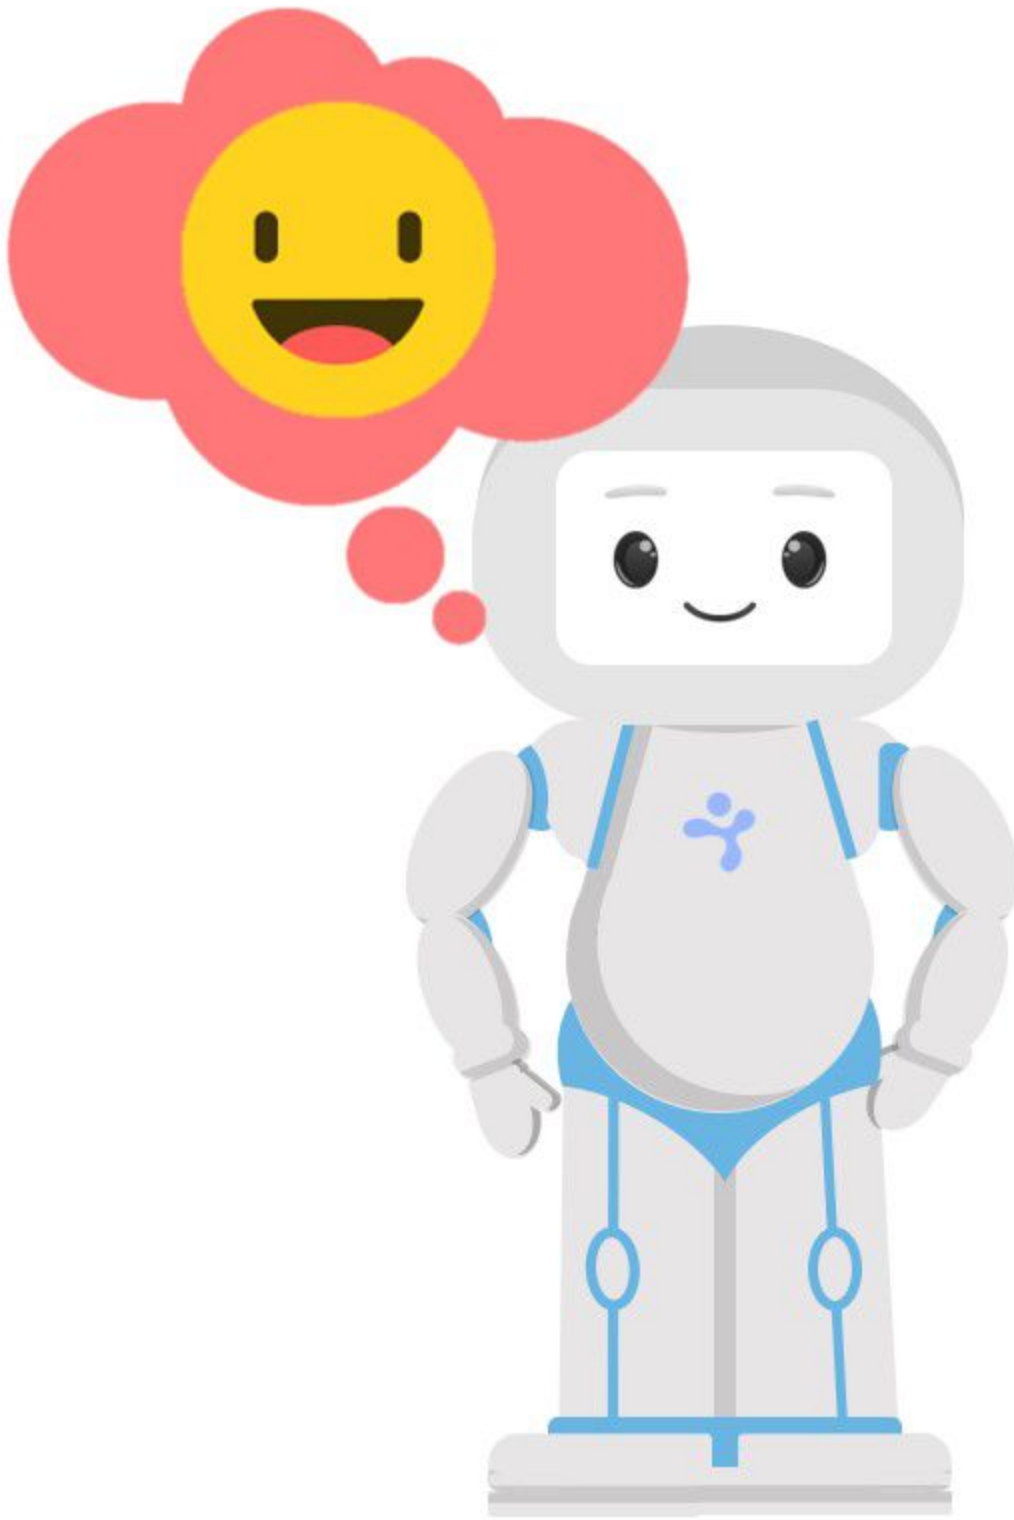

I can say:  
“I’m fine. Thank you.”

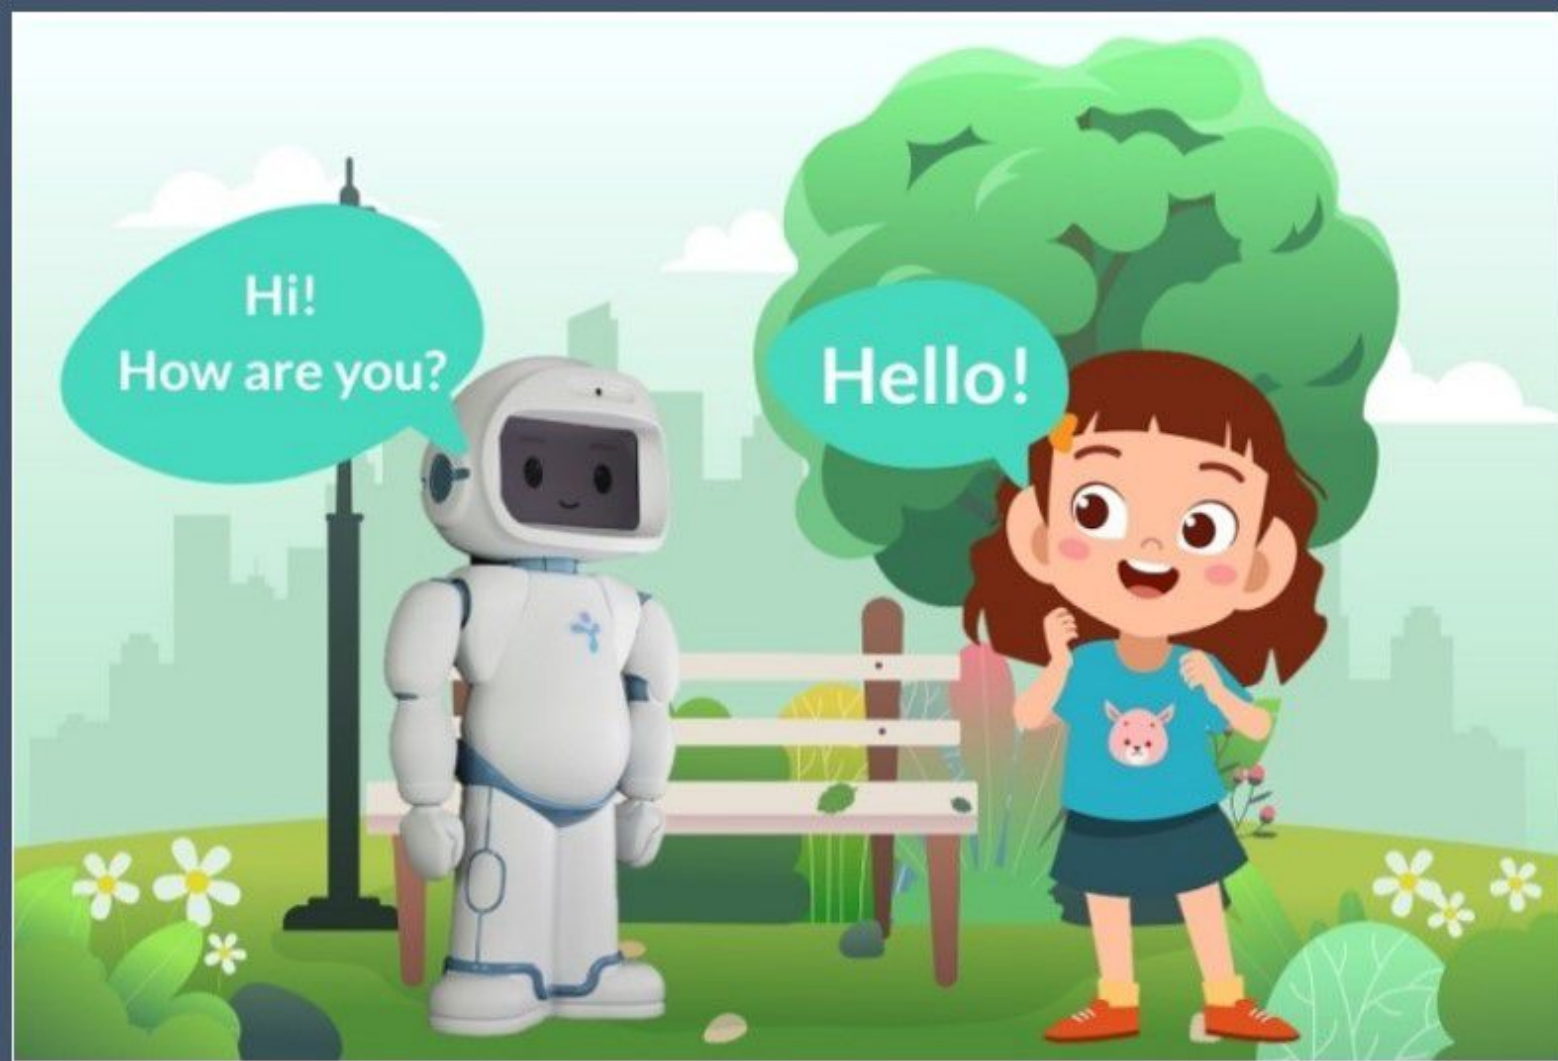

**When I don't say hello, my friends  
think I am rude!**

**Saying hello to my friends, makes  
them happy.  
It shows that I am friendly and nice.**
