

BE BRILLIANT

Foodservice Product Catalog

MIX. SQUEEZE. SPREAD. SMOOTH. FINESSE. STEP BACK. ADMIRE. REPEAT.

A trusted brand since 1928, Brill delivers fresh ideas and superior formulations for cakes, icings, and cookies that inspire bakers to ***be brilliant.***

Fresh ideas. Superior formulations. Outstanding taste and quality.

Brill offers convenient products and techniques to help bakeries and foodservice operators create a one-of-a-kind bakery experience. For nearly a century, we have been inspiring creativity and defining special occasions with ready-to-use icings, glazes, toppings, cakes, cookies and more.

A background image showing hands working with various donuts on a wooden surface. There are chocolate-glazed donuts, a cinnamon roll, and plain donuts. A person's arm in a plaid shirt is visible on the right.

TABLE OF CONTENTS

Fillings	22-27
Muffins	28-31
Cakes	32-34
Brownies	35
Loaf Cakes	36-37
Cookies	38-41
Laminated Dough	42-43
Licensed Products	44-46

Our Simplicious Promise: When you see the word “Simplicious” or the Simplicious icon, you can rest assured that the product contains only essential ingredients and no artificial flavors, sweeteners, FD&C colors, high fructose corn syrup (HFCS) or unnecessary preservatives. We believe incredible flavor, texture and performance can coexist with simple, familiar, easy-to-read ingredients in products consumers will love.

GLAZES

Whether you're looking for a glaze with maximum yield, extended shelf life, freeze-thaw stability, translucent appearance or honey flavor, our glazes really shine. Quality is the key to any fine creation and you deserve to work with only the best ingredients, which is what you get with Brill glazes.

Highlights & Benefits

- **Ready, Set, Go** – Our **RTU** glazes require no additions to the recipe while delivering a thin coating with little or no heat.
- **Gloss** – Provide a non-fading sheen to your creation giving the perfect finish.
- **Crack Resistant** – Our glazes remain pliable and smooth while resisting peels or cracks for at least 24 hours.
- **Clarity** – A clear, transparent glaze allows your creation to shine through.

Glaze to Promote Shelf Life and Appearance

Glazes are most commonly used to create a seal to improve shelf life of a baked item. Although glazes and flat icings are used in similar applications such as donuts, cinnamon rolls, cookies and pastries, there are some key differences. Glazes are not as thick as flat icings which allow the color and appearance of the product to show through while still providing a glossy finish.

Superior Cold Dip Icings and Glaze

- Easy-to-use icings can be dipped straight from the pail with no heating, reducing time and labor.
- Superior shine for an appealing appearance. Versatile enough to use with pre-fried donuts, cookies, brownies and more!
- Extended shelf life that keeps that fresh look and taste for at least 48 hours, twice as long as leading icings today.

FLAT ICINGS

Looking for a flat icing for dipping donuts or finishing off that perfect dessert? Our priority is developing flat icings that are simple to use while delivering amazing taste that is sure to please even the most discriminating palates. The winning combination of passionate attention to detail, the best ingredients and innovative recipes will provide you with the wow factor that's sure to sweeten your success.

Highlights & Benefits

- **Ready-To-Use (RTU)** – Quick soft set allows for application direct from the pail and provides an overall softer texture
- **Heat-and-Apply (HNA)** – Requires heat before use, but sets quickly providing a firmer finish and texture
- **Finish** – Our fondant-based formulas provide a smooth, shiny appearance to enhance look of quality & appetite appeal
- **Texture** – Fondant and extra fine sugar also provide consistent appearance and smooth mouthfeel

Flat Icings for Finishing Touches

Flat icings can be used on a variety of products. When icing donuts, they are pliable enough to apply directly from the pail for a soft set, but can also be heated for a quicker, firmer set. Flat icings can also be drizzled on pastries to add a more distinctive look and creative touch. Flat icings are opaque, as opposed to the translucent glazes, and provide appealing color and a smooth, shiny finish.

Heated (HNA)

- Heat icing to 105-110 degrees (F)
- Quick Set (10-12 minutes)
- When stability is needed (display cases and boxed programs)

Our Most Stable Icings (WRAP)

- Heat icing to 130-140 degrees (F)
- Quick Set (8-12 minutes)
- For products that requires overwrapping
(Product going through distribution vending operations)

Non-Heated (RTU)

- Brill's Roll Icings virtually eliminate shrink due to "overheating"
- Relatively Quick-Set (15-20 minutes)
- For use when stability is not critical (designed for un-boxed, ambient display)
- Brill's Superior Icings provide an added benefit of extended shelf life

Simplicious™

Simple ingredient lists with no artificial flavors, sweeteners, FD&C colors, high fructose corn syrup (HFCS) or unnecessary preservatives.

FUDGE ICINGS

Our versatile fudge bases and icings deliver rich, delicious flavor sure to satisfy your decadent needs. Fondant is the primary ingredient for our fudge bases and can easily be manipulated to make icings, aerated frosting, cake batters and the moistest brownies. Ready- to Use icings add delightful finishes to cakes, dipping donuts, icing brownies and so much more. Both are recognized as being easy to use and exceed industry standards for quality and performance.

Highlights & Benefits

- **Ready, Set, Go** – Our **RTU** icings are ready when you are, requiring no additions to the recipe and delivering consistent flavor across all markets.
- **Decadent Flavor** – All of our fudge icings are specially formulated to stand out against the competition. Premium ingredients like our ultra fine sugar and cocoa liquor create a rich and decadent finish to any baked good.
- **Cost-effective product** – Our fudge **bases** can create a smooth and creamy icing, whipped frosting, or a moist batter for cookies, brownies and cakes.
- **Easy Storage** – All of our fudge **icings** are stored ambient requiring no refrigeration or freezer to preserve freshness.

Simplicious™

Simple ingredient lists with no artificial flavors, sweeteners, FD&C colors, high fructose corn syrup (HFCS) or unnecessary preservatives.

BUTTERCREME FROSTINGS

With a combination of quality ingredients and superior processes, Brill offers consumer preferred bases and ready-to-use buttercreme frostings. From smooth and creamy vanilla to mint cookies 'n crème, we produce an extensive variety of flavored and colored buttercremes to help you celebrate every occasion.

Highlights & Benefits

- **Ready, Set, Go** – Our ready-to-use buttercremes are ready for use whenever you need, requiring no additional ingredients or extra steps, saving you time and delivering consistent performance.
- **Easy Storage** – Most icings are stored ambient requiring no refrigeration or freezer to preserve freshness.
- **Tailor-made** – Our buttercreme bases provide a balance of consistency and versatility for those looking to make their own frosting.
- **Decadent Flavor** – Our extensive line of flavors make buttercremes an excellent addition to almost any dessert.

Buttercreme Frosting and Bases for Convenience, Consistency and Flexibility

Our ready-to-use buttercreme frostings are pre-mixed and aerated, giving you consistent color and performance while saving you time and labor. Our buttercreme frostings come in a variety of flavors, fusions and colors. Our buttercreme bases are concentrated frostings that require the addition of water, optional butter or flavor before they can be applied or used. Bases give you the flexibility to modify the frosting to your taste and texture preferences.

Unique Tastes and Textures with Flavors and Fusions

Flavored buttercremes contain a vanilla buttercreme frosting blended with the aroma and taste of natural or artificial flavors that range from lemon to salted caramel. Fusion buttercremes contain a vanilla buttercreme frosting blended with the aroma and taste of natural or artificial flavors as well as a range of unique inclusions, such as candy and Oreo crumbles.

Simplicious™

Simple ingredient lists with no artificial flavors, sweeteners, FD&C colors, high fructose corn syrup (HFCS) or unnecessary preservatives.

WHIPPED TOPPINGS

Whatever you're "whipping up," Brill has the whipped topping to complete your special creation. So versatile and easy to use, our extensive line of liquid and pre-whipped toppings are the perfect choice for virtually every dessert. Use Brill whipped toppings as an ingredient, garnish, pastry filling or icing on the cake! Experience the flavor and texture of homemade whipped cream, but with the quality and consistency that only Brill can provide!

Highlights & Benefits

- **Ready-To-Use** – Our ready-to-use whipped toppings require no additional ingredients or extra steps, saving you time and delivering consistent performance.
- **Non-Dairy Formula** – While still offering the pleasant dairy notes of whipped cream, our non-dairy formulas help you avoid problems with food allergies while also giving you a longer shelf life.
- **Lighter taste** – Whipped toppings are lighter and more aerated than typical icings, making them perfect for a broad range of applications, from cakes to beverages.
- **Ready-To-Whip** – Our liquid whipped toppings allow you to whip the product to your desired consistency and aeration, giving you more customization and yield.

Whipped Toppings for a Lighter Finish

While both buttercremes and whipped toppings are aerated products that can be used for cakes, cupcakes and donut fillings, there are some key differences between the two types of products. Whipped toppings are more aerated than buttercremes, which means they have a lighter mouthfeel and a higher yield. Also, whipped toppings do not contain any dairy, while some buttercremes may contain butter.

TOPPINGS

Intentionally designed and crafted with quality ingredients, Henry & Henry toppings heighten the look and taste of your bakery case. Our streusels and smears will layer in that extra special texture or flavor for your baked goods, and our sugar serves as the perfect finish on your donut or specialty pastry while providing a balance between great performance and taste.

Highlights & Benefits

- **Ready-To-Bake (RTB)** – Our ready-to-bake toppings are bake-stable allowing you to use these products in a broader application.
- **Easy Storage** – Most toppings are stored ambient requiring no refrigeration or freezer to preserve freshness.
- **Ready, Set, Go** – Our ready-to-use (RTU) toppings require no additional ingredients or extra preparation, saving you time and delivering consistent performance.

ICE CREAM TOPPINGS

Henry & Henry provides toppings to crown any frozen dessert. Transforming your ice cream or frozen beverages into works of art, our ice cream toppings are designed to create an irresistible finishing touch. With easy-to-use coatings and a range of fudges, Henry & Henry has all you need to turn your dessert into an experience.

Highlights & Benefits

- **Ready, Set, Go** – Our ready-to-use (RTU) toppings require no additional ingredients or extra preparation, saving you time and delivering consistent performance.
- **Heat-N-Applly (HNA)** – Our HNA products require an additional preparation step to heat in a warmer to soften texture and increase ease of use before applying to product.
- **Easy Storage** – Most ice cream toppings are stored ambient requiring no refrigeration or freezer to preserve freshness.
- **Decadent Flavor** – Our broad line of flavors make ice cream toppings an excellent addition to your dessert.

FILLINGS

Since 1899, Henry & Henry has been known for superior fillings with rich flavor and vibrant color. Our comprehensive assortment of fillings provide trusted, convenient formats and flavors to suit your most creative need.

Highlights & Benefits

- **Assortment** – Our vast array of flavors and fruit cuts accommodate a range of application needs.
- **Formats** – Multiple packaging solutions, from pouches to pails to drums, our fillings provide a great fit for any operation.
- **Quality** – Our fillings are manufactured with the highest quality ingredients enabling you to create truly delicious bakery creations.

Broad Range of Options to Fit Just About Any Application

To fit the wide variety of uses for fillings, Henry & Henry has developed different lines to help meet your specific needs.

Crown – Premium fillings perfect for those who demand only the best.

Fruitful – Fillings made for baking with smaller cuts that retain their shine, color and flavor. These fillings are perfect when whole fruit or full slices are not required.

Variety – Cost-effective filling options that retain their shine, color and flavor.

Freefill Fillings – High-quality fillings that follow our Simplicious promise emphasizing simple, clean ingredients without compromising flavor or usability. In addition to being free of high fructose corn syrup, FD& C colors, artificial sweeteners, artificial flavors and with minimal preservatives, these fillings are made to be bake and freeze stable.

MUFFINS

We believe in muffin innovation. Our experts introduced pre-deposited muffins to the industry, and pioneered the Scoop-N-Bake® format. We offer an unsurpassed selection of flavors, including blueberry, cranberry, chocolate chip and other savory varieties.

Highlights & Benefits

- **Formats:** We offer our muffins in three formats to accommodate a variety of needs for each customer: Scoop N Bake, Pre-Deposited and Thaw N Sell.
- **Clean Label:** Karp's batter is a clean label product with premium ingredients. We use individual formulations for each muffin that deliver a made from scratch taste.
- **Ingredients:** We use only high quality ingredients in our muffins, our entire Scoop N Bake line is clean label and we also offer clean label muffins in PDM format.
- **Operational Ease:** All three of our formats offer that fresh, made from scratch eating experience, while minimizing back of house labor.
- TNS offers a fresh muffin experience with the greatest operational ease,
- PDMs are easy to use and can be baked within 60 minutes of panning and do not require a hot oven (Bakes at 350° in a rack oven)
- Scoop N Bake batter provides time and labor savings

Simplicious™

Simple ingredient lists with no artificial flavors, sweeteners, FD&C colors, high fructose corn syrup (HFCS) or unnecessary preservatives.

CAKES

From joyous celebrations to intimate gatherings with friends, cake is at the heart of life's sweetest moments. Offering a broad portfolio of cupcakes, ring cakes, loaf cake, sheet cakes, round cakes, and batters, Brill has the perfect solution for any occasion.

Highlights & Benefits

- **Our Quality:** Each of our cakes are carefully made from scratch with specialty selected premium ingredients and finished in auto bake ovens to produce a superior bake that is unmatched.
- **Broad Assortment:** With a robust portfolio of sizes, varieties, popular flavors, and seasonal specialties, Brill provides everything you need for a cake program that draws shoppers into the bakery year round.
- **Superior Pairings:** When paired with our superior icings and fillings portfolios, Brill cakes are elevated and provide the ultimate indulgence and decadent treat.

Sheet Cake Layers

Brill's full line of sheet and cake layers pair perfectly with Brill icings and Henry & Henry fillings. Our sheet and layer cakes utilize superior ingredients to deliver a premium quality product.

COOKIES

Your customers will find our soft and chewy cookies hard to resist. Packed with premium chocolates, nuts, tasty fruits and candies, these cookies are sure to satisfy any craving.

Why Brill Cookies?

When it comes to cookies, we don't simply settle for mere sweet tooth satisfaction. We believe cookies should spark the kind of craving that your customers will keep coming back for, starting with the first bite.

Our carefully crafted recipes include exclusive cocoa blends, premium fruit and nuts and quality blends of butter, margarine, and shortening. We preserve the integrity of all of our ingredients through each step in our manufacturing process, including careful temperature control before, during and after production.

Using our unique processes, we deliver an authentic home-style cookie in a variety of formats, flavors and sizes with large and chunky inclusions, and to ensure exceptional quality products, we control each and every batch all across our supply chain.

Highlights & Benefits

- **Manufacturing** – Our cookies are wire cut for an authentic home-style appearance that shoppers favor.
- **Superior Flavor & Ingredients** – We have an exclusive chocolate chip formulation that delivers unique, more premium flavor. We use high quality fruit and nut inclusions
- **Partnership** – Brill shares its investment into industry insights with our valued customers.
- **Variety** - Includes mini, everyday, gourmet and message cookies. Clean label varieties are available to address consumer demand. Our Simplicious cookies have no HFCS, artificial preservatives or artificial colors.

Everyday Cookie Pucks

Brill's Everyday Cookies are moist, chunky, delicious, decadent and come in a variety of flavors. No matter what your customers' sweet tooth is craving, Brill's small cookie dough pucks are formulated to create repeat sales and happy customers while increasing your profitability.

LAMINATED DOUGH & MORE

Our full line of laminated dough creates the flakiest, tastiest pastries, croissants, and cinnamon rolls around. A variety of pie shells and tops, cobbler crusts and dinner rolls are available, too.

Highlights & Benefits

- **Convenience:** With proof and bake, freezer to oven, and ready-to-bake kit formats, our laminated products allow operators to offer a fresh from the oven experience with minimal hassle.
- **Premium Ingredients & Pairings:** Many of our laminated products are made with real butter and are wrapped around Brill's superior fillings to create the ultimate indulgence.
- **Variety:** Our laminated products come in a broad assortment of sizes and seasonally-relevant flavors for a year-round bakery offering.
- Why Brill laminated products?

LICENSED PRODUCTS

Companies around the world look to Brill to provide bakery expertise and manufacturing capabilities necessary for taking their products to new markets and elevating fresh bakery programs. We work hand-in-hand to develop unique offerings for retailers seeking to leverage the equity of these brands. Through our partnerships, the world's most sought-after brands can now be enjoyed at home or on the go.

Why Licensed Products?

- **Brand Power:** Trusted Brands in a new format stimulate impulse buys
- **Convenience:** Brill's licensed products are retail ready and require minimal labor at the store level.
- **Unique Experience:** Products feature premium ingredients, rich and decadent toppings, layers and inclusions for an intense flavor and multi-sensory experience.
