

of Lodi

59 Houston Lane, Suite B, Lodi, CA 95240

Good Afternoon,

Servpro of Lodi has been affiliated with BBSI for over 14 years, we signed up with them in 2006 after experiencing numerous Workers Compensation increases through the State of California's State Fund.

Through the years BBSI has always been there for any of our Workers Comp needs, we've had a few claims and they have been handled professionally and quickly and have always helped us navigate the complicated waters of California's Workers Comp system.

BBSI has also managed our background checks, payroll services and the frequent and varied changes to California's Employment law. Our HR Consultant Elizabeth Rendon has answered and advised us on all of our payroll and HR questions through the years.

With the advent of the Coronavirus, every business owner in California was suddenly quite concerned with just how OSHA, the EDD, the DIR and every other state run agency would attempt to manage the rules and laws of Human Resources. Elizabeth and BBSI were there at the forefront sending out daily and sometimes multiple daily updates on the rules and law changes that are occurring. When the PPP program initially started, again Elizabeth and BBSI were there helping us navigate the constant changes to the program. With their help we were able to be one of the first businesses in Northern California to secure funding. Even our bank was amazed at how quickly we were able to put together our application all with help from BBSI.

To this day our business cost with BBSI still is lower then any other programs currently available. We've recommended them to other franchise offices over the years and they have all been happy with their services.

I hope Servpro Industries can develop a relationship with BBSI nationwide, every franchise in the country would greatly benefit from their services.

Thank You,

Perry Morris

CEO
