

## Home is Everything

Dear Friend,

A pandemic. A global uprising for racial justice. What a challenging year it's been for all of us. Through it all, you built firm foundations for local families. Your gifts during our 2019-2020 fiscal year directly impacted **735 families**. Plus, your generosity made it possible for us to adapt when crises arose. Enclosed you'll see a sneak peek of your impact—and be sure to view your complete Annual Report at [tchabitat.org/everything](https://tchabitat.org/everything).

You know home is more important now than ever before. And despite massive disruption, you stepped up so 105 families could buy homes with Habitat. Your donations also brought us within \$2 million of hitting our five-year \$55 million goal for the *Multiplying the Impact* campaign. More importantly, your support has doubled the number of families buying homes with Habitat. *Incredible!*

And your generosity kept on coming. When stay-at-home orders were enacted this spring, we launched the *At Home Fund* to do two things: protect Habitat homeowners experiencing financial hardship, and continue expanding homeownership when it's needed most. Your gifts support families in crisis right now and help us prepare for the eviction and foreclosure crises on the horizon.

The importance of home has come into sharp focus this year in many ways—especially around racial equity. In Minnesota, three in four White families own homes, compared to one in four Black families. Racist policies created that chasm, and it will take hard work to close it.

But this Habitat community is all about seeing a challenge, drawing up plans, and getting to work to solve it. Thank you for joining us on this journey of learning from the past to build a brighter future.

You create home, and *home is everything*. **Thank you.**
